

# EMERGENCY MANAGEMENT PLAN

Kentucky Center for School Safety

[www.kysafeschools.org](http://www.kysafeschools.org)

# **District Plan**

# **Letter from the superintendent**

# Forward

In 2001 the Kentucky Center for School Safety along with the Kentucky Department of Education, local school district personnel, state and local law enforcement and various response agencies developed an emergency management planning guide or template in an effort to assist school districts (along with their schools) to consistently develop their emergency operations plans. Since 2001 there have been many changes to the school safety and community landscape necessitating us to review and subsequently update this document. We have again enlisted the expertise of many partnering agencies, local school district personnel and community organizations to guide us in this effort. The result is a planning document for school districts, schools and school communities that provides a focus on an “all hazards approach” and building the plan upon five mission areas. These mission areas (described in detail later in the document) are Prevention, Protection, Mitigation, Response and Recovery. Each area of this planning process plays a unique role and is designed to provide specific information and skills that are intended to support each of the other mission areas. We are calling this document the Emergency Management Resource Guide. This document is not intended to be a school’s plan, rather it is designed to be a template by which a school (and/or district) can pick and choose the areas that are specific to them and customize a plan that is consistent with best practice, while being unique to their particular location.

The possibility of massive health concerns (such as a pandemic), terrorist attacks, requirements under the National Incident Management System (NIMS), National Response Framework (NRF), National Infrastructure Preparedness Program (NIPP), continuity of operations planning and business continuity plans, are all areas that were little known, discussed or incorporated into local school district emergency operations plans in 2001. Schools must take a much broader view of their role in terms of an emergency and be prepared to act accordingly. Effective school safety planning is intended to be “pro-active,” developed in collaboration with community partners, school staff and students. These school specific plans should be reviewed regularly and tested in order to ensure that all affected persons are aware of their role in an emergency.

## **What are some of the more common weaknesses that are seen in local school emergency response protocols?**

- Emergency response planning has not engaged all stakeholders
- Lack of consistent format or protocols between schools
- Assistance with emotional recovery after an incident
- Little attention given to...
  - Developing a viable Incident Command Structure (ICS)
  - Training staff, students and community
  - Testing (exercising) the efficacy of the plan
  - Parent notification and reunification
  - A “continuity of operations plan”

# **Table of contents**

**Appendix D: Kentucky Department of Education Guidance For:  
Senate Bill 8/House Bill 354 Emergency Management Planning  
For Schools and Districts**

## Introduction

The Kentucky General Assembly passed Senate Bill 8, and HB 354 which changes Kentucky's current emergency plan law (KRS 158.163), took effect on **June 25, 2013**. The bills expand the current law by requiring schools and districts to include community first responders in their emergency plans, and present an opportunity for review and refinement of current emergency and safety practices through continuous improvement. These bills are a logical step taken after recent tragic events occurring in our nation's schools, ranging from intruders to tornadoes, and focus our attention once again on our goals and efforts to keep our students and staff safe.

As part of implementation for SB8/HB354, KDE has developed a set of assurances that will be monitored through the district Comprehensive District Improvement Plan (CDIP). The Assurances hyperlink will allow you to preview the assurances for both the district and school that will be uploaded into the CDIP/CSIP this fall. Schools should review and refine their current Emergency Plan then share with their school council for adoption annually. **Adoption by the school council must occur prior to completing assurances in CDIP and no later than November 1st.**

### Part 1: Emergency Preparedness Definitions\*

**Prevention**, means the capabilities necessary to avoid, deter, or stop an imminent crime or threatened or actual mass casualty incident. Prevention is the action schools take to prevent a threatened or actual incident from occurring.

**Protection** means the capabilities to secure schools against acts of violence and manmade or natural disasters. Protection focuses on ongoing actions that protect students, teachers, staff, visitors, networks, and property from a threat or hazard.

**Mitigation** means the capabilities necessary to eliminate or reduce the loss of life and property damage by lessening the impact of an event or emergency. In this document, "mitigation" also means reducing the likelihood that threats and hazards will happen.

**Response** means the capabilities necessary to stabilize an emergency once it has already happened or is certain to happen in an unpreventable way; establish a safe and secure environment; save lives and property; and facilitate the transition to recovery.

**Recovery** means the capabilities necessary to assist schools affected by an event or emergency in restoring the learning environment.

**\*Note:** The majority of Prevention, Protection, and Mitigation activities generally occur before an incident, although these three areas do have ongoing activities that can occur throughout an incident. Response activities occur during an incident, and Recovery activities can begin during an incident and occur after an incident. **Source:** *U.S. Department of Education/FEMA: Guide for Developing High Quality School Emergency Operations Plans (June 2013)*

## Part 2: Guidance for the Implementation of SB 8/HB 354

The passage of [Senate Bill 8](#) and [HB 354](#) changes Kentucky's current emergency plan law ([KRS 158.163](#)), took effect on **June 25, 2013**. These bills expand the current law by requiring schools and districts to include community first responders in their emergency plans, and require an annual report to KDE by November 1 of each school year, specifically:

### **SB 8/HB 354 requires schools and districts to:**

1. Adopt an emergency plan to include procedures to be followed in case of fire, severe weather, or earthquake, or if a building lockdown as defined in [KRS 158.164](#) is required; the principal shall discuss the emergency plan with all school staff prior to the first instructional day of each school year and shall document the time and date of any discussion.
2. Provide, after adoption, the emergency plan, along with a complete diagram of the facility, to appropriate local first responders.
3. Establish primary and secondary evacuation routes for all rooms located within the school and post the routes in each room by any doorway used for evacuation.
4. Identify severe weather safe zones to be reviewed by the local fire marshal or fire chief and post the location of safe zones in each room of the school.
5. Develop practices for students to follow during an earthquake.
6. Conduct, at a minimum, emergency response drills to include one (1) severe weather drill, one (1) earthquake drill and one (1) lockdown drill within the first thirty (30) instructional days of each school year and again during the month of January.
7. Develop and adhere to practices to control the access to each school building, including requiring that all visitors report to the front office of the building and provide valid identification, state the purpose of the visit; and provide a visitor's badge to be visibly displayed on a visitor's outer garment.
8. Follow (as much as possible) the recommendation that all classroom doors be locked during instructional time, if the door can be locked from the outside and opened from the inside without a key.
9. Require local boards to review Crime Prevention through Environment Design Principles when constructing or renovating a school building.
10. Superintendent verification of district-wide compliance must be sent to KDE by November 1st of each school year.

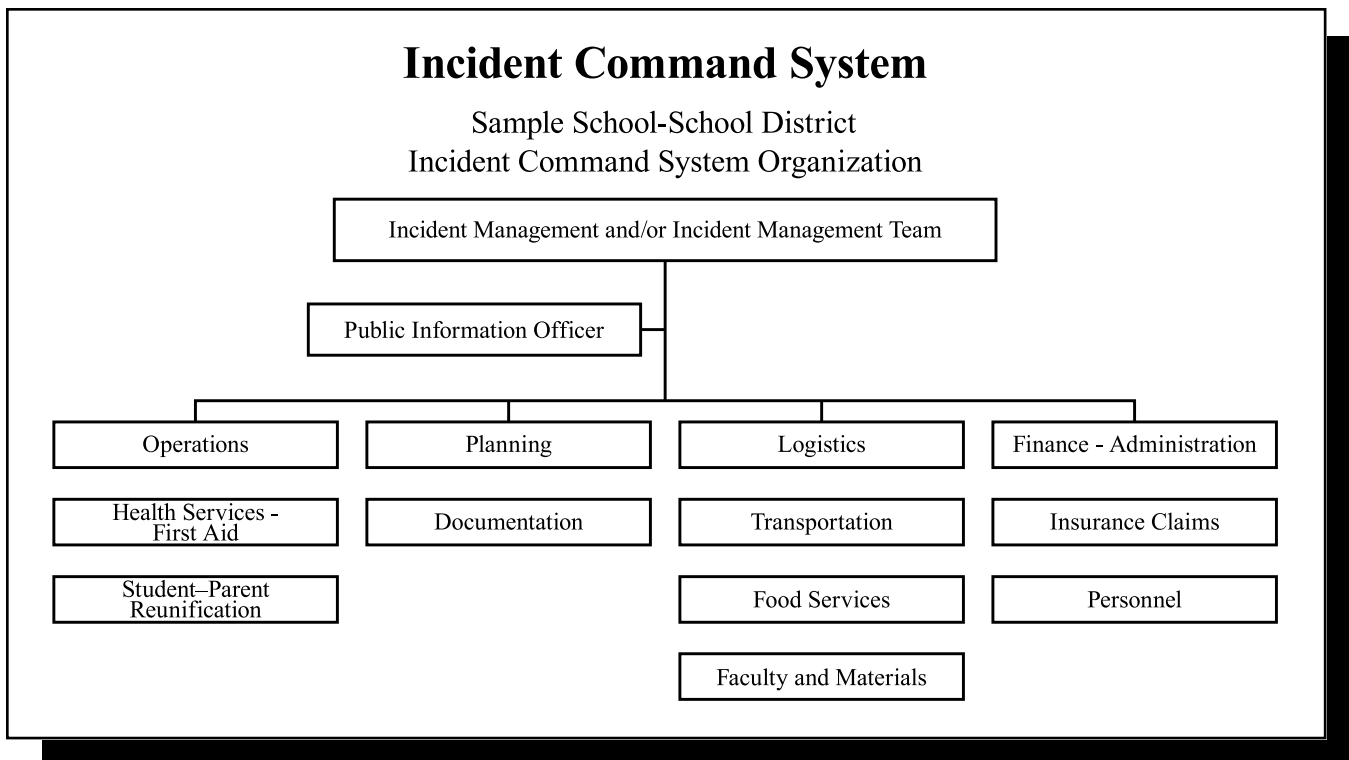

Prior to adoption of your new Emergency Plan, you should review your school's current preparedness status and determine what needs development and refinement in order to meet the new safe school requirements. While it is essential to ensure compliance of this statute, it is also important to strive for best practice of school safety through a continuous improvement process. Systematic, informed planning for your school's emergency plan will only increase the well-being for your students, staff and community. The following **Emergency Plan Refinement Worksheet** has been developed as a tool to assist with the review and refinement of your current Emergency Plan as a method to meet the requirements of the new statute in a timely manner. It will also help to inform planning for the entry of the School Safety Assurances within the CDIP due to KDE no later than November 1st annually.

<b>Part 3: Emergency Management Plan Refinement Worksheet</b>				
<b>Required School Safety Assurances</b>		<b>Yes</b>	<b>No</b>	<b>Date Completed</b>
<b>1.</b>	Does my school have a written Emergency Management Plan (EMP)?			
<b>2.</b>	Did the SBDM Council adopt a policy requiring the development and adoption of an EMP?			
<b>3.</b>	Did the SBDM Council adopt the EMP?			
<b>4.</b>	Has my school provided the local fire responders with a copy of the school's EMP and a copy of the school's floor plan?			
<b>5.</b>	Was the EMP reviewed with faculty and staff prior to the 1 <sup>st</sup> instructional day of the school year?			
<b>6.</b>	Were local law enforcement and/or fire officials invited to review the EMP?			
<b>7.</b>	Are evacuation routes posted in each room, at any doorway used for evacuation, with primary and secondary routes indicated?			
<b>8.</b>	Has the local fire marshal reviewed the designated safe zones for severe weather and are they posted in each room?			
<b>9.</b>	Have practices been developed for students to follow during an earthquake?		<b>Yes</b>	<b>No</b>
	Plan	What are the current practices? Are current practices working effectively?	Person(s) Responsible	Date Completed
	Do	Do current practices need to be changed? What steps need to occur?	Person(s) Responsible	Date Completed
	Study	What are the outcomes? How will success be measured?	Person(s) Responsible	Date Completed
	Act	What needs refinement? When will practices be evaluated?	Person(s) Responsible	Date Completed

<b>10.</b>	Has my school developed and adhered to practices designed to ensure controlled access to the school (exterior doors, front entrance, classrooms, visitor must sign-in and display ID badges)?		Yes	No	Date Completed
	Plan	What are the current practices? Are current practices working effectively?	Person(s) Responsible		Date Completed
	Do	Does the plan need to be changed? What steps need to occur?	Person(s) Responsible		Date Completed
	Study	What are the outcomes? How will success be measured?	Person(s) Responsible		Date Completed
Act	What needs refinement? When will practices be evaluated?	Person(s) Responsible		Date Completed	
<b>11.</b>	Has my school completed all four required emergency response drills in the first 30 instructional days of the school year (fire, lockdown, severe weather, and earthquake)?		Yes	No	Date Completed
	Plan	What are the current prevention practices? Are current practices working effectively?	Person(s) Responsible		Date Completed
	Do	Does the plan need to be changed? What steps need to occur?	Person(s) Responsible		Date Completed
	Study	What are the outcomes? How will success be measured?	Person(s) Responsible		Date Completed
	Act	What needs refinement? When will plans be evaluated?	Person(s) Responsible		Date Completed

<b>12.</b>	Has my school completed all four required emergency response drills during the month of January (fire, lockdown, severe weather and earthquake)?		Yes	No	Date Completed
	Plan	What are the current processes? Are current processes working effectively?	Person(s) Responsible		Date Completed
	Do	Does the plan need to be changed? What steps need to occur?	Person(s) Responsible		Date Completed
	Study	What are the outcomes? How will success be measured?	Person(s) Responsible		Date Completed
	Act	What needs refinement? When will practices be evaluated?	Person(s) Responsible		Date Completed
<b>13.</b>	Has the EMP been reviewed and revised as needed by the SBDM Council, principal, and first responders (annually)?		Yes	No	Date Completed
	Plan	What are the current practices? Are current practices working effectively?	Person(s) Responsible		Date Completed
	Do	Does the plan need to be changed? What steps need to occur?	Person(s) Responsible		Date Completed
	Study	What are the outcomes? How will success be measured?	Person(s) Responsible		Date Completed
	Act	What needs refinement? When will practices be evaluated again?	Person(s) Responsible		Date Completed

The team should then review and modify each emergency protocol to reflect local needs and circumstances in order to prevent and/or mitigate the impact of an emergency should one arise.

Since job titles in different districts may have very different meanings, throughout the guide the district team will need to update local school district job titles using appropriate local terms (some schools and districts have found it constructive to follow the titles utilized within the Incident Command System (ICS) National Incident Management System (NIMS). Each of these titles has a specific role during an emergency and is directed by the Incident Commander (typically the building principal until he/she transfers this responsibility to someone else depending upon the nature of the emergency).

According to KRS 39A.230, all schools/districts shall include procedures for implementing the incident command system during any emergency situation. In order to be proficient in these protocols, school personnel are encouraged to complete ICS 100SCA, 200, 700 800. Administrators should also complete ICS 300. These courses can be found at <http://training.fema.gov/NIMS>.

## District Planning

According to best practices in school safety, there should be an emergency response plan developed at the district level. This plan will be used for emergency events that are greater than a single school can address, involves more than one school or a community-wide emergency.

## School Centered Planning

After the District Support Team has completed its revision of the guide, each school and support building should create a site-specific Emergency Operations Plan. To do this, the school will need to establish an Emergency Management Response Team to review their site's existing emergency plan, or to develop a new

plan using this guide as a model. Using the outline, sample forms, and protocols provided in the district's updated guide, schools can create an emergency plan which includes a designated chain of command, specific roles for team members, and school specific procedures to implement in the event of an emergency.

Each school district will need to determine how best to conduct the training and implementation process in individual schools. For smaller districts, the district team may be able to assist on a school-by-school basis. Larger districts will need a more coordinated and systematic way to conduct training for school centered teams to better prepare them to adapt the district plan to their individual school needs. According to K.R.S. 158.162, each Principal shall discuss the emergency plan with all school staff prior to the first instructional day of each school year and shall document the time and date of any discussion.

**158.162 Mandatory adoption of emergency management response plan in each public school.**

- (1) As used in this section:
  - (a) "Emergency management response plan" or "emergency plan" means a written document to prevent, mitigate, prepare for, respond to, and recover from emergencies; and
  - (b) "First responders" means local fire, police, and emergency medical personnel.
- (2)
  - (a) Each local board of education shall require the school council or, if none exists, the principal in each public school building in its jurisdiction to adopt an emergency plan to include procedures to be followed in case of fire, severe weather, or earthquake, or if a building lockdown as defined in KRS 158.164 is required.
  - (b) Following adoption, the emergency plan, along with a diagram of the facility, shall be provided to appropriate first responders.
  - (c) The emergency plan shall be reviewed following the end of each school year by the school council, the principal, and first responders and shall be revised as needed.
  - (d) The principal shall discuss the emergency plan with all school staff prior to the first instructional day of each school year and shall document the time and date of any discussion.
  - (e) The emergency plan and diagram of the facility shall be excluded from the application of KRS 61.870 to 61.884.
- (3) Each local board of education shall require the school council or, if none exists, the principal in each public school building to:
  - (a) Establish primary and secondary evacuation routes for all rooms located within the school and shall post the routes in each room by any doorway used for evacuation;
  - (b) Identify the best available severe weather safe zones, in consultation with local and state safety officials and informed by guiding principles set forth by the National Weather Service and the Federal Emergency Management Agency, and post the location of safe zones in each room of the school;
  - (c) Develop practices for students to follow during an earthquake; and
  - (d) Develop and adhere to practices to control the access to each school building. Practices may include but not be limited to:
    1. Controlling outside access to exterior doors during the school day;
    2. Controlling the front entrance of the school electronically or with a greeter;
    3. Controlling access to individual classrooms. If a classroom is equipped with hardware that allows the door to be locked from the outside but opened from the inside, the door should remain locked during instructional time;

4. Requiring all visitors to report to the front office of the building, provide valid identification, and state the purpose of the visit; and
  5. Providing a visitor's badge to be visibly displayed on a visitor's outer garment.
- (4) Each local board of education shall require the principal in each public school building in its jurisdiction to conduct, at a minimum, emergency response drills to include one (1) severe weather drill, one (1) earthquake drill, and one (1) lockdown drill within the first thirty (30) instructional days of each school year and again during the month of January. Required fire drills shall be conducted according to administrative regulations promulgated by the Department of Housing, Buildings and Construction. Whenever possible, first responders shall be invited to observe emergency response drills.
- (5) No later than November 1 of each school year, a local district superintendent shall send verification to the Kentucky Department of Education that all schools within the district are in compliance with the requirements of this section.

**Effective:** June 24, 2015

**History:** Amended 2015 Ky. Acts ch. 38, sec. 1, effective June 24, 2015. -- Created 2013 Ky. Acts ch. 126, sec. 1, effective June 25, 2013; and ch. 133, sec. 1, effective June 25, 2013.

**Legislative Research Commission Note** (6/25/2013). This statute was created by 2013 Ky. Acts chs. 126 and 133, which were companion bills and are substantively identical. Where these Acts are not in conflict, they have been codified together. Where a conflict exists, Acts ch. 126 prevails under KRS 446.250 as the Act which passed the General Assembly last.

## Communication and Practice

The final step in the emergency response planning process is to communicate and practice the plan. As required in KRS158.162, all four drills must be completed within the first 30 days of school and again in January. In addition, according to the National Fire Protection Association, schools are required to conduct two fire drills within the first two weeks of school and one each subsequent month. The District Support Team holds the responsibility to assist each school in conducting awareness trainings and in practicing various elements of emergency protocols. While most schools are adept at practicing techniques such as fire drills and severe weather drills, most are not well rehearsed in planning for such events as a chemical release, threats to self or others, intruders and other possible emergencies.

This Guide represents an effort to bring together elements of an all-hazards approach to emergency management for natural, technological, climate and culture, infrastructure, non-structural, biological, physical well-being and man-made incidents.

## Summary

A **District Support Team**, in collaboration with community partners creates a district model emergency response plan. It is important to base the plan(s) upon this **template**, but tailored to local needs. The District coordinates training for **School-Centered Emergency Response Teams** to adapt the district guide for school-specific needs.

District and school-centered teams **communicate** and **practice** the plan with staff and community partners in an effort to better prepare for a response and recovery in the event of an emergency.

# Emergency Management: Five Mission Areas

For purposes of this guide, “emergency” is defined as:

**A sudden, generally unanticipated event that has the potential to profoundly and negatively impact a significant segment of the school population.**

In order to create and maintain a viable Emergency Response Plan there must be a high level of understanding and consistency of thought among all of the partners. Typically school districts will create a district support team that provides assistance to schools and other entities within the school district. This consistency of thought (and the individual plan) is built around the five mission areas of emergency management; they are **(1) prevention, (2) protection, (3) mitigation, (4) response and (5) recovery**. Each school’s plan should incorporate these basic planning building blocks. By doing so, consistency among all stakeholders is enhanced and a higher level of understanding is created.

What are some of the characteristics of a weak school or district plan?

- No standardized format
- Lack of consistency between schools
- Lack of consistency and coordination between school plan and district plans
- Lack of interaction among state, regional and local partners
- Lack of training for school personnel
- Plans are not critiqued and/or tested on a regular basis
- Lack of after action reporting and documentation

## Partners in the Planning Process

School districts and individual schools should not attempt to create their plans in isolation. This will only lead to misunderstanding, lack of trust and less than a desirable response should one be needed. It is for this reason that at a minimum the following entities be involved in the preparation, planning and testing of the response plans:

- Local Emergency Management
- Law enforcement (local, regional and/or state)
- Public Health
- Mental Health
- Local government (representative from the Mayor’s office)
- Fire Safety Officials
- Emergency Medical Services

These partners will be able to provide excellent guidance, training and assistance in complying with federal mandates such as the National Incident Management System (NIMS).

Schools and school districts are under extreme pressure to produce significant and sustained academic growth; we believe that this can best be accomplished in a safe and nurturing environment.

Kentucky Center for School Safety

# ***Incident Command***

# Recovery

**Recovery means the capabilities necessary to assist schools affected by an event or an emergency in restoring the learning environment.**

Recovery may also include the process of assisting people with the physical, psychological and emotional trauma associated with experiencing tragic events. Recovery is also utilizing a “Business Continuity Plan” or a “Continuity of Operations Plan” to return to normal operations as soon as possible.

## **Immediate vs. Ongoing Recovery**

It is essential to understand recovery at two distinct levels, immediate and ongoing. Immediate support is needed from the first moments of a traumatic event through the first few days following it. Frequently, recent victims of major trauma are in a state of shock, and at this time basic human needs of food, shelter and clothing are often a primary focus. Long-term recovery needs may not be readily apparent, and for many, ongoing support will be needed. Ongoing recovery refers to support provided to some individuals for weeks, months or years following a tragic event.

## **Assessment, Crisis Intervention and Support**

Children and their parents, faculty, staff and administrators, public safety personnel and the larger community are all impacted by tragic events and will benefit from immediate and ongoing support. For some traumatic events the District Support Team may be adequate to provide immediate and ongoing recovery services. Emergencies that affect a small number of people, or certain district-level emergencies may be well served by crisis counseling and recovery from other district employees, local community mental health providers, employee assistance programs and similar services. Often, this is an appropriate time to include members of faith-based organizations who have the appropriate training in this area.

For large-scale emergencies, however, services such as triage, assessment, outreach and crisis intervention are best delivered on a regional basis through a trained rapid response network. For large-scale disasters, site-based personnel normally assigned these functions are now victims/survivors themselves. The regional network of trained professionals provides a structured immediate first response system to support the district in need. Site-based personnel will be called on to provide the ongoing support services once the immediate crisis has passed. Their effectiveness will be strengthened if needed support is afforded to them during the early days of recovery. Recognizing the impact of incident related stress on all school and district staff members while supporting outreach efforts will help insure “quality care”.

## **Examples include:**

- Strive to return to learning as quickly as possible
- Restore the physical plant, as well as the school community
- Monitor how staff is assessing students for the emotional impact of the crisis
- Identify what follow up interventions are available to students, staff and first responders
- Conduct debriefings with staff and first responders
- Assess curricular activities that address the crisis
- Allocate appropriate time for recovery
- Plan how anniversaries of events will be commemorated
- Capture “lessons learned” and incorporate them into revisions and trainings

Kentucky Center for School Safety

***Recovery***

# Response

**Response is the process of implementing appropriate actions while an emergency situation is unfolding. In short, responding means “doing what you planned to do.” In this phase, schools/districts mobilize resources needed to handle the emergency at hand.**

## Emergency Management Response Protocols

A broad range of emergency situations are identified in the Emergency Management Response Protocols section of this guide. For each event listed there are specific actions to be taken to appropriately handle the given situation. Depending on the type of emergency, protocols may remain under the domain of the school, may require assistance from the District Support Team, or may necessitate a coordinated community-wide response. Schools and districts should strive to maintain an agreed upon simple language protocol that all school personnel, students, visitors and responders would easily understand.

This process would avoid the use of elaborate codes or code words that may not be known or understood by the majority of people involved in the crisis or visitors in the school at the time of the incident.

## Universal Emergency Procedures

Universal Emergency Procedures refers to a set of clear directives that may be implemented across a number of situations. For example, **1) Evacuation** is a procedure that would apply to a situation when it is safer outside the building than inside (such emergencies could be a fire, bomb threat or interior gas leak). Personnel throughout the building would not necessarily need to know which emergency is occurring; they simply need to know to *evacuate* once a decision has been made and announced. The intent is always to move students, staff and visitors away from harm.

Other Universal Emergency Procedures include **2) Reverse Evacuation, 3) Severe Weather Safe Area, 4) Shelter in Place, 5) Lockdown and 6) Drop, Cover and Hold**. The advantage of having a small set of universal procedures is its simplicity. With Universal Emergency Procedures in place, staff can learn to follow specific directions without having to learn extensive protocols for dozens of different emergency responses.

## Emergency Response Protocols

- Accidents at School
- Aircraft Crash Emergency
- Allergic Reaction
- Assault
- Bloodborne Pathogens / Infectious Substances
- Bomb Threat / Terroristic Threatening
- Bus Accident
- Chemical Material Spill
- Cyber / Electronic Threat
- Death or Serious Illness
- Earthquake
- Fire
- Gas Leak
- Hostage Situation / Kidnapping
- Infectious Diseases
- Missing Person
- Poisoning
- Rape / Sexual Abuse
- Suicide
- Threat
  - Active Threat Response
  - Assessment of Threat
  - Threat of Harm
- Weather Related Emergency

Kentucky Center for School Safety

# ***Response***

# Mitigation

Mitigation activities are the cornerstone for creating effective “Emergency Response” plans for the school district, individual schools and the community. While schools and communities will have little control over some hazards that could impact them, (plane crash, industrial accident, weather related events, etc.) there are actions that can be taken to reduce the impact of such events. Other events such as bomb threats, fights, intruders, and vandalism are more likely to occur and actions can be taken to minimize the likelihood of their occurrence. The first “rule of thumb” in this process is to not work alone. In order to effectively develop a viable plan of action you will need the input from a variety of individuals (local emergency response agencies, local/regional emergency management personnel, hospital/medical staff, mental health and local government representatives).

Let’s take a closer look at each of these elements:

**Mitigation is the action schools and districts take to eliminate or reduce the loss of life and property damage related to an event that cannot be prevented.**

Mitigation refers to actions taken to reduce the adverse effect of an emergency. Mitigation measures can be implemented before, during or recovering from an emergency. Following a school safety assessment conducted in the “mitigation and prevention” phase, measures can be taken to eliminate or minimize the hazards that have been identified. The main thing to remember is that mitigation activities refer to any sustained action implemented to reduce or eliminate long-term risk to life and property related to events that cannot be prevented. Mitigating emergencies is also important from a legal standpoint. If a school, district, or state does not take all necessary actions in good faith to create safe schools, it could be vulnerable to a negligence law suit.

**Mitigation is the process of deciding what you will do in the event of an emergency, before the emergency actually occurs. The activities under this heading ready schools and school districts to rapidly respond in a coordinated manner. Preparedness involves the coordination of efforts between the local school district, individual schools and the community at large.**

Some examples of “Mitigation” activities are:\*

- Identify and incorporate procedures for individuals with special needs
- Identify and acquire emergency supplies – “go kits” (administration and classroom)
- Identifying weaknesses in the current emergency management plan
- Interpreting the data collected from the vulnerability assessments conducted during the Mitigation phase
- Creating and strengthening relationships with community partners, including members of law enforcement, fire safety, local government, public health and mental health agencies and the media
- Establishing an Incident Command System (ICS)
- Implementing functional training exercises for faculty and staff with first responders
- Implementing evacuation, lockdown and shelter-in-place drills
- Coordinating Emergency Operations Plans with those of state and local agencies to avoid unnecessary duplication

\*These examples were taken from the Readiness in Emergency Management for Schools.

Kentucky Center for School Safety

***Mitigation***

# Protection

**Protection means the capabilities to secure schools against acts of violence and man-made or natural disasters. Protection focuses on ongoing actions that protect students, teachers, staff, visitors, networks and property from threat or hazard.**

Some examples of protection would be:

- Secure all points of entry
- Develop visitor procedures to include sign-in and identification
- Lock all class room doors during instruction
- Identify all staff members with identification badges
- Post evacuation routes in each room by any doorway used for evacuation to include both primary and secondary routes specific for that room
- Train staff members in doing security scans (checking familiar areas for unfamiliar objects, persons, etc.)
- What risks and opportunities do students encounter between home and school?
- What risks and opportunities are posed on the school property and areas directly adjoining school property?
- Can the office staff observe approaching visitors before they reach the school entry?
- Do staff members have the ability to stop visitors from entering?
- How well can people see what is going on inside the school?
- Do staff members have immediate lockdown capability in classrooms and other locations?
- Are there identifiable or predictable trouble spots or high risk locations? (These locations may have already been addressed in the previous questions. This serves as a fail-safe measure, to see if any locations have been missed, and require more specific recommendations.)
- Security technology

\*See the Kentucky Center for School Safety website for CPTED Principles.

Kentucky Center for School Safety

***Protection***

# Prevention

**Prevention is the action schools and districts take to decrease the likelihood that an event or crisis will occur.**

Prevention can best be described as a set of pro-active strategies that will enhance the safe and orderly learning environment at the district and school building levels.

Some examples of these pro-active steps for mitigation/prevention would be:

- Identify local hazards
- Conduct a Safe School Assessment
- Review discipline referral data for trends
- Conduct regular safety checks (building and grounds walk through)
- Communication protocols for staff, students, caregivers and the community at large
- Food preparation protocols
- Pandemic Flu preparations
- Limited access policies
- Anti-bullying, anti-violence programs
- Pro-social skills curriculum
- Wellness activities
- Bolting bookshelves to the wall
- Fencing hazardous areas
- Applying Crime Prevention Through Environmental Design (CPTED) principles to school grounds and structures
- Student supervision protocols (consistency by all staff)
- Discipline protocols (understanding and consistency by all staff)
- Mail handling
- Building access control measures
- Student accounting
- Wellness activities (such as drug/alcohol prevention, mental health services, etc.)

When an agreed upon list of issues has been established, strategies and corresponding activities can be implemented. Anti-bullying programs, drug and alcohol prevention programming, school wide discipline programming, and required staff supervision schedules are strategies that can be implemented to assist in the Prevention phase of the plan. Only those strategies that have been validated or proven to be effective should be utilized.

Kentucky Center for School Safety

***Prevention***

This environment not only has a viable emergency response protocol, but has encouraged and promoted caring relationships between students and adults. It is through these types of relationships that a truly safe and healthy environment can exist.

While schools remain the safest place for school-aged children, there are new issues that challenge our thinking, protocols, planning, response and recovery processes. We now must think about and plan for the following:

## **New Challenges**

- ☐ Pandemic/Infectious Diseases
- ☐ Terrorist Attacks
- ☐ Chemical/Biological/Nuclear/Explosive Venues
- ☐ Business Continuity Planning (how do we continue to meet our business demands-payroll, insurance, building maintenance, etc.)
- ☐ Continuity of Operations Planning (how do we continue to carry out our educational mission)
- ☐ Workplace Violence
- ☐ Parent Reunification Policies
- ☐ Media Relations (role of the Public Information Officer)
- ☐ After Action Review Reports
- ☐ Documentation of Effort
- ☐ Bullying
- ☐ School Related Cyber Crimes (bullying, theft, etc...)
- ☐ Even Ordinary School Visitation
- ☐ Field-Trip Safety and Child Protection
- ☐ Non-Custodial Parent Procedures

# Professional and Legal Responsibilities For Emergency Preparedness

Adapted from the Federal Emergency Management Agency's (FEMA's) "Multi-Hazard Emergency Planning for Schools".

## Responsibility

1. Schools are a vital community resource.
  - School personnel have a moral and legal responsibility to all students in their care.
  - Your school is responsible for students during day-to-day operations.
  - After a disaster, your school may serve as the gathering place for hundreds of people who live or work nearby.
2. In most cases, teachers and staff members will be required to remain at school until they are released by the principal, superintendent, or incident commander.
  - This responsibility to students in a disaster should be covered in each individual's employment contract.
  - The school cafeteria should maintain a three day food supply to feed those sheltered at the school.
  - This policy recognizes the school's obligation to keep students safe.
  - Just as school staff members will rely on other members of the community to open blocked roads, repair utilities, perform rescue work, etc., those members of the community will rely on schools to provide for the children in their care.
3. Staff members should have a family emergency plan; that plan should anticipate that the school staff member must stay at school.
  - Knowing your family is prepared and can handle the situation will enable you to do your job professionally.
  - Remind your family that if the telephones are not working, you will be unable to call them.
  - If the telephones work, tell them you will wait an hour or two to keep the lines open.
4. Ideally, the school plan should include a prioritization of which teachers and staff members might be released first (such as those with small children at home).
5. Staff members who live alone or a long distance from school should be encouraged to make special preparations for remaining at school a longer time, such as arranging with a neighbor to check on their home and keeping extra supplies at school.

## Legal Aspects

- If you are a school official with decision-making authority and you neglect or avoid taking disaster safety precautions, you may be found personally and financially liable for damages, injuries and deaths at your school.
- Many states now require specific disaster preparedness activities. In Kentucky, several statutes related to emergency planning and safe schools reporting:
  - K.R.S. 61.878(1)(M)1 – Open Records Exemption
  - K.R.S. 156.095 – Disseminate Suicide Prevention Information
  - K.R.S. 158.070 – Suicide Training for Secondary School Staff
  - K.R.S. 158.150 – Suspension or expulsion of students
  - K.R.S. 158.154 – Principal’s duty to report certain acts to local law enforcement
  - K.R.S. 158.162 – Emergency Management Response Plan
  - K.R.S. 158.163 – Earthquake and tornado emergency procedures system
  - K.R.S. 158.164 – Building lockdown procedure -- Practice
  - K.R.S. 158.165 – Possession and use of personal telecommunications device
  - K.R.S. 610.345 – Principal’s duty to share “Disclosure Notices” received from courts
- Have your legal counsel check to see that your school or district is in compliance with current laws and standards regarding school safety.

*See Appendix D: Kentucky Department of Education Guidance For: Senate Bill 8/House Bill 354  
Emergency Management Planning For Schools and Districts*

# Checklist for District Planning

Under the direction of the superintendent or designee, each district is to complete the following according to its unique needs and circumstances. Each District Support Team should comprise a variety of school employees, as well as community representatives and stakeholders.

- ☐ Designate a single “lead contact” for orchestrating district level planning
- ☐ Have each team member read or become familiar with this Emergency Management Resource Guide
- ☐ Complete the following:
  - District Support Team Emergency Numbers**
  - Local / Regional Emergency Response Numbers**
  - Potential Hazards (Part 1)**
  - Potential Hazards (Part 2)**
  - Visitor Screening Policy/Access Control**
- ☐ Review entire chapter entitled “**Creating the Emergency Operations Plan,**” modify for local needs, titles, circumstances
- ☐ Review **Universal Emergency Procedures**, modify for local needs
- ☐ Review **Emergency Operations Protocols**, modify for local needs
- ☐ Coordinate district planning with local police, fire, emergency medical, and other emergency responders (review lines of communication between agencies, procedures for interagency collaboration, etc.)
- ☐ Prepare a district model **Emergency Quick Reference Guide**. Each school will adapt the district’s model for individual use
- ☐ Establish a timeline and procedures for how the district will support training for administrators and school-based teams (to prepare them to conduct school-based planning)
- ☐ Establish a mechanism for individual schools to request assistance in creating school-based plans, and to help mitigate identified hazards
- ☐ Designate a district level contact or liaison to monitor individual school’s progress; create a mechanism for schools to submit updated plans on a yearly basis
- ☐ Establish a regular meeting or planning schedule for the District Support Team; determine who will attend these meetings (all stakeholders vs. smaller task force approach)

# District Level Plan

The superintendent or designee is ultimately responsible for overseeing ongoing activities in emergency prevention, protection, mitigation, response and recovery. Under his/her direction, the school district should form a district-level team to review the contents of this guide, and to modify it for local use.

Upon completing the revision of this guide, the District Support Team's role changes to that of support. The District Support Team functions to assist schools in the coordination and allocation of needed resources when the need imposed by the current situation exceeds the affected school's normal resources.

## Forming the District Level Support Team

### Suggested Steps for Team Formation

1. Superintendent or designee communicates with selected staff in key district roles to recruit them to serve on the district team. As in the local school, a staff inventory should be conducted to determine if any individual has experience or specialized training in any of these areas.
2. Superintendent or designee creates list of staff, making sure that all emergency support functions are addressed, including:
  - Director of security or law enforcement
  - Director of building and grounds
  - Director of maintenance
  - Director of transportation
  - Director of supply services
  - District level secretary or receptionist
  - Director of community or public relations
  - Director of risk management and safety
  - School psychologists and social workers
  - Personnel with areas of expertise (i.e., CPR, first aid, etc.)
3. An initial meeting is held with potential team members to discuss what will be expected for team membership and to outline steps for planning and implementation.
4. District-level team identifies possible community agencies and individuals to assist in district planning, such as:
  - Police Department, Fire Department
  - Emergency Medical Services

- Social Service Agencies (Child Welfare, Juvenile Justice)
- City/County government
- Local hospitals, medical and mental health professionals
- Local/regional emergency management agency
- Business representatives
- Clergy, Parents
- Local American Red Cross

5. As much as possible, formalize interagency agreements with Memoranda of Agreements

***Reference the Appendix A: “Generic School District – Emergency Operations Plan”.***

(MOU), letters of support, etc. (samples available at the Kentucky Center for School Safety web site: [www.kysafeschools.org](http://www.kysafeschools.org)).

6. Initially, meet as often as needed to review portions of this guide to modify for local use. Have each team member review specific areas which pertain to their area of expertise (for example, local police and school security review protocols and actions which may involve a security response).
7. When the adaptation of this guide is completed, schedule a “kick-off” presentation or training for school administrators to begin the process of school-level planning.
8. Ongoing, hold regular team meetings throughout the school year to assist schools in school level planning, to review school specific plans, and to address ongoing issues as they arise (which may include local, state or national issues that may affect the district). Small communities may wish to have all participants in the same meetings; larger districts may need to form smaller task forces to accomplish specific tasks.
9. Schedule drills, practice and annual reviews (district and school levels).

# District Support Team Emergency Numbers

Complete the form below to reflect your district's offices, adding and deleting as necessary. Include district office phone numbers, with appropriate local terminology for job titles, positions, departments, etc.

Title	Name – Location	Numbers/Cell
Superintendent		
Assistant Superintendent		
Director of Security/ Law Enforcement		
Director of Maintenance		
Director of Transportation		
Director of Nutritional Services		
Director of Supply Services		
Director of Safety		
Director of Buildings and Grounds		
Director of Special Education		
Director of Student Support (counseling, soc. work, etc.)		
Director for Safe and Drug Free Schools		
Director of Health or Medical Services		
Director of Public Relations		
Legal Counsel		
Other		
Other		

# Local / Regional Emergency Response Numbers

Complete the form below to reflect your district or regional emergency resources. List local hospitals, emergency services, mental health crisis lines, social service agencies, American Red Cross, regional / local emergency response agencies, etc. It is important in planning stages to form interagency partnerships with law enforcement agencies, fire and rescue, etc. in order to predetermine jurisdiction in the event of ongoing investigations.

Agency – Address	Name – Title	Numbers

# Potential Hazards (Part 1)

It is vital to record the potential hazards for your geographic area and risks to your district so you know what to expect and what to do to protect students and staff. It is essential to understand that disasters have a cascading effect:

- Forest fires lead to debris flows, mud slides, grassfires and smoke/pollution
- Earthquakes cause fires, loss of water supply, structural damage, chemical leaks and disruption of communications
- Flooding blocks roads, damages property, and ruins food supply
- Tornadoes destroy buildings, cause fallen power lines
- A medical epidemic/pandemic creates significant disruptions to the educational and related business routines

In an effort to prioritize these events the District Support Team needs to consider what is most likely to occur in this area and when/if these events have occurred in the past.

Natural Hazards	Predictability and Approx. Frequency	Warning Time	Comments or Actions to Take
Earthquakes			
Severe weather, tornadoes, lightning			
Excessive rains, flash floods, flooding			
Dam failure			
Mud slides			
Windstorms			
Snowstorms			
Sinkholes			
Grass or forest fires			
Other			
Other			

## Potential Hazards (Part 2)

The District Support Team needs to consider what other human/technological factors, could occur or have occurred in your region:

Human or Technological Hazards	Predictability and Approx. Frequency	Warning Time	Comments or Actions to Take
Bomb threat, or other terrorism			
Arson, fire			
Riots			
Air pollution, smog alert			
Water or food pollution			
Hazardous material spills			
Nuclear or radiological accident			
Asbestos			
Communication systems failures			
Water system disruptions			
Gas or electric disruption			
Transportation systems disruptions			
Airplane, airport hazard			
Railroad track, station hazard			
Other			

# Visitor Screening Policy/Access Control

*(In this section create, update or insert your district policy regarding Visitor Screening. Ideally, the individual who is updating this Guide could type, or “cut and paste” the district’s policy here, then delete the text below).*

## Visitor Screening Suggestions

- All visitors shall be addressed with a standardized greeting before being granted access into the building.
- Outdoor and exit door signs to direct all visitors to the entrance they should enter.
- Utilize positive welcoming signs that clearly indicate where you want visitors to go (i.e. Office, Reception Area, etc.)
- All exterior doors should be locked only allowing entrance through one designated entrance.
- All visitors should pass through an office area that offers verbal and visual contact with staff.
- All visitors sign-in, show identification, leave a deposit such as keys or ID and receive a sticker or other badge.
- Designate staff to provide verbal face-to-face contact to inquire about the person’s name, area or room to be visited and nature of the visit.
- If person is new to the school or unsure of the room location, a staff member may meet him/her or accompany him/her.
- Visitors should return to sign out when leaving the school.
- There should be no exceptions to the policy.
- Involve and acquaint parents, parent-teacher organizations, etc. with the policy and the need to know who is in the building.
- All teachers and staff should know the policy.
- All staff should be expected to question people without a badge and ask them to check in with the office before proceeding to the intended room.

**Appendix A: Crime Prevention Through  
Environmental Design  
CPTED Principles Checklist for Kentucky Public Schools**

# Crime Prevention Through Environmental Design

## CPTED Principles Checklist for Kentucky Public Schools

**KRS 158.447, Required review of Crime Prevention Through Environmental Design (CPTED) principles prior to school construction or renovation.**

The Kentucky Department of Education shall require a local board of education to review CPTED principles when constructing a new school building or when renovating an existing school building. Effective: June 25, 2013

Keeping Kentucky's schools as safe as possible begins with prevention. As such, when planning to build a new school or renovate an existing school building, a critical level of security can be provided when specific principles and guidelines are considered. CPTED standards are designed to encourage review and consideration of best practices in physical plant safety and security.

Any effort local school officials can make to enhance the safety of children and school employees must be considered as being of paramount importance.

Listed below are specific topics for school officials and local boards of education, in cooperation with their design professionals, to consider when beginning the planning process for new construction:

**District Name:** \_\_\_\_\_ **District Code:** \_\_\_\_\_

**Facility Name:** \_\_\_\_\_

**Project Name:** \_\_\_\_\_

**BG Number:** \_\_\_\_\_

### 1. What risks and opportunities do students encounter between home and school?

	Yes	No	Remarks
Are crosswalk locations hazardous?			
Can physical surveillance of the campus be improved?			

### 2. What risks and opportunities are posed on the school property and areas directly adjoining school property?

	Yes	No	Remarks
<b>Traffic Related</b>			
Are student drop-off areas separated from school buses and other forms of transportation?			
Are parking lots separate for staff, students, and visitors with appropriate signage?			

Is adequate signage provided to direct visitors to the primary entrance of the building?			
Is the parking lot positioned in areas adequate for surveillance (physical and electronic)?			
Are walkways positioned for adequate surveillance from within the building?			
Is adequate external lighting provided?			
During renovations, consider surrounding hazards			
Is access to school property controlled by fencing, walls, signs (territorial, directional, and regulatory)?			
Do solid walls, fences, trees, and hedges block surveillance or attract graffiti? (3/7 rule – bushes trimmed 3 feet or shorter, trees cut 7 feet high)			
Are possible evacuation sites available? Do they have telephones, bathrooms, heat, securable areas?			

**3. Can the office staff observe approaching visitors before they reach the school entry?**

	Yes	No	Remarks
Is the office located adjacent to the main entry?			
Does anything block the view? (Sculpture, landscaping features)			
Do windows allow natural surveillance of approaching visitors?			
Does the office layout allow staff to see approaching visitors from normal working positions?			
If poorly located, can new locations for the office be identified and the office moved?			

**4. Do staff members have the physical ability to stop visitors from entering?**

	Yes	No	Remarks
Is there an airlock or sally port vestibule?			

<b>Is it difficult for staff members to lock entry doors in an emergency?</b>			
<b>Can staff use an emergency electronic lock button?</b>			
<b>Do staff members use keys? Are they required to go outside the room in order to lock the door?</b>			
<b>Is the primary entrance secured, monitored and identified with appropriate signage?</b>			
<b>Do counters or windows protect office staff?</b>			
<b>If threatened, can office staff retreat to safer locations?</b>			
<b>Do staff members have panic button alarms?</b>			
<b>Can intruders gain access any other way than through the main entry?</b>			
<b>Are all exterior doors numbered?</b>			
<b>Can those secondary entries be locked, staffed, and otherwise controlled?</b>			
<b>Is an alarm system in place? What triggers the alarm and what happens then?</b>			

**5. How well can people see what is going on inside the school?**

	<b>Yes</b>	<b>No</b>	<b>Remarks</b>
<b>Can office staff and others see activity in immediately adjacent areas, as well as up and down hallways? Can they see over the heads of crowds using mirrors, cameras, raised areas?</b>			
<b>Do blind corners, niches, unlocked and unattended rooms block surveillance?</b>			
<b>Can access to hidden areas be denied? Can those areas be locked off?</b>			
<b>Would convex mirrors help? If yes, where?</b>			
<b>Can internal windows be uncovered, or blinds be opened, to improve surveillance?</b>			
<b>Can first responders see what is going on in the building?</b>			

**6. Do staff members have immediate lockdown capability in classrooms and other locations?**

	Yes	No	Remarks
Can rooms be used as safety areas in emergencies? If yes, which ones?			
Is it difficult to lock each room in an emergency?			
Is a key required to lock the classroom door?			
Does a person have to step into the hallway to lock the door?			
Will classroom doors lock automatically when closed?			
Is there a two-way intercom or telephone in each room?			
Are there secondary emergency exits available from each room?			

**7. Are there identifiable or predictable trouble spots or high-risk locations? (These locations may have already been addressed in #1-6. This serves as a fail-safe measure, to see if any locations have been missed, and require more specific recommendations.)**

	Yes	No	Remarks
Climbing hazards (trees, ladders, etc)			
School boundaries			
School grounds			
Playgrounds			
Driveways			
Bike racks			
Main entry area			
Secondary entryways			
Main office			
Hallways (specify which ones)			
Courtyards			
Classrooms			
Temporary classrooms			
Gymnasium			
Locker rooms, locker bays, locker halls			
Toilets			
Library			

Cafeteria			
Loading docks and dumpsters			
Custodial receiving and storage areas			
Boiler room			
Auditorium			
Art rooms			
Science labs			
Preschool or Head Start classrooms			
Music rooms			
Special education rooms			
Computer/technology rooms			
Family/Consumer science rooms			
Technology education rooms			
Agriculture classrooms/labs			
Time-out rooms			
Meeting or conference rooms			
Informal or formal gathering areas			
Roof			
Crawl spaces			
Surveillance equipment closet			
Key control			
Lighting problems indoors or out			

## 8. Security Technology

	Yes	No	Remarks
Are access control devices used?			
Are electronic access control devices being used?			
Do emergency workers have easy access when needed?			
Are surveillance cameras used?			
Is a monitoring station provided? Can they be viewed off-site?			
If yes, are cameras maintained, protected from vandals, functional, and of adequate quality?			

**9. Miscellaneous**

	Yes	No	Remarks
Is hallway lighting positioned perpendicular to the walls?			
Are stairwells lit adequately?			
Is appropriate directional signage provided for other areas than the primary entrance (gym, theatre, stadium, etc)?			
Are emergency call stations or panic alarms provided?

# Universal Emergency Procedures

Universal Emergency Procedures are a set of standard, clear directives that may be implemented across a variety of emergency situations. When an emergency begins, the principal, as Incident Commander, will decide which Universal Emergency Procedures to implement, based on the situation.

There are six basic procedures which can be utilized in responding to various emergencies:

1 – Evacuation

3 – Severe Weather Safe Area

5 – Lockdown

2 – Reverse Evacuation

4 – Shelter in Place

6 – Drop, Cover and Hold

<p><b>1 EVACUATION</b> (For use when conditions outside are safer than inside)</p> <p><b>When announcement is made or alarm sounded:</b></p> <ul style="list-style-type: none"> <li>Take the closest and safest way out as posted (use secondary route if primary route is blocked or hazardous)</li> <li>Take class roster for student accounting</li> <li>Assist those needing special assistance</li> <li>Do not stop for student/staff belongings</li> <li>Go to designated Assembly Area</li> <li>Check for injuries</li> <li>Take attendance; report according to Student Accounting and Release procedures</li> <li>BE QUIET!</li> <li>Wait for further instructions</li> </ul>	<p><b>4 SHELTER IN PLACE</b> (For use in chemical release scenarios)</p> <p><b>When the announcement is made:</b></p> <ul style="list-style-type: none"> <li>Turn off HVAC System</li> <li>Students are to be cleared from the halls immediately and to report to nearest available classroom or other designated location</li> <li>Assist those needing special assistance</li> <li>Close and tape all windows and doors and seal the gap between bottom of the door and the floor (chemical release)</li> <li>Take attendance; report according to Student Accounting and Release procedures</li> <li>Do not allow anyone to leave the classroom</li> <li>Stay away from all doors and windows</li> <li>BE QUIET!</li> <li>Wait for further instructions</li> </ul>
<p><b>2 REVERSE EVACUATION</b> (For use when conditions inside are safer than outside)</p> <p><b>When the announcement is made:</b></p> <ul style="list-style-type: none"> <li>Move students and staff inside as quickly as possible</li> <li>Assist those needing special assistance</li> <li>Report to classroom</li> <li>Check for injuries</li> <li>Take attendance; report according to Student Accounting and Release procedures</li> <li>BE QUIET!</li> <li>Wait for further instructions</li> </ul>	<p><b>5 LOCKDOWN</b> (For use to protect building occupants from potential dangers in the building)</p> <p><b>Note: school-specific lockdown procedures should be developed by school officials and local law enforcement officials. Please see “Considerations When Developing a School Lockdown Policy” for additional information. See <a href="http://www.kycss.org/lockdown.php">www.kycss.org/lockdown.php</a></b></p> <p><b>When the announcement is made:</b></p> <ul style="list-style-type: none"> <li>Students are to be cleared from the halls immediately and to report to nearest available classroom</li> <li>Assist those needing special assistance</li> <li>Close and lock all windows and doors and do not leave for any reason</li> <li>Stay away from all doors and windows and move students to interior walls and drop</li> <li>BE QUIET!</li> <li>Wait for an official to open the door</li> </ul>
<p><b>3 SEVERE WEATHER SAFE AREA</b> (For use in severe weather emergencies)</p> <p><b>When announcement is made or alarm sounded:</b></p> <ul style="list-style-type: none"> <li>Take the closest, safest route to shelter in designated safe areas (use secondary route if primary route is blocked or dangerous)</li> <li>Occupants of portable classrooms shall move to the main building to designated safe areas</li> <li>Take class roster for student accounting</li> <li>Take attendance; report according to Student Accounting and Release procedures</li> <li>Assist those needing special assistance</li> <li>Do not stop for student/staff belongings</li> <li>Close all doors</li> <li>Remain in safe area until the “all clear” is given</li> <li>BE QUIET!</li> <li>Wait for further instructions</li> </ul>	<p><b>6 DROP, COVER AND HOLD</b> (For use in earthquake or other imminent danger to building or immediate surroundings)</p> <p><b>When the command “Drop” is made:</b></p> <ul style="list-style-type: none"> <li>DROP – to the floor, take cover under a nearby desk or table and face away from the windows</li> <li>COVER - your eyes by leaning your face against your arms</li> <li>HOLD - on to the table or desk legs, and maintain present location/position</li> <li>Assist those needing special assistance</li> <li>BE QUIET!</li> <li>Wait for further instructions</li> </ul>

# Drill Schedule and Log

Special note: As of 2013, all four emergency response drills (fire, lockdown, severe weather and earthquake) must be conducted within the first 30 days of the new school year and must be conducted again in January (see Appendix D: Kentucky Department of Education Guidance For: Senate Bill 8/ House Bill 354 Emergency Management Planning For Schools and Districts).

Use the following worksheet to plan drills for your school. Submit a copy of the schedule with your school's plan, and use the original to document drills when they actually occur.

**Fire Drills:** Two fire drills in the first month of school, and one per month each following month.

Monthly Schedule	Date Conducted	Weather Conditions	Number of Occupants	Evacuation Time	Comments, Notes
1st:					
2nd:					
3rd:					
4th:					
5th:					
6th:					
7th:					
8th:					
9th:					
10th:					
11th:					
12th:					

**Earthquake Drills:**

Date Scheduled	Date Conducted	Number of Occupants	Response Time	Comments, Notes
1st:				
2nd (Jan):				

**Severe Weather Safe Area:**

Date Scheduled	Date Conducted	Number of Occupants	Response Time	Comments, Notes
1st:				
2nd (Jan):				

**Lockdown:**

Date Scheduled	Date Conducted	Number of Occupants	Response Time	Comments, Notes
1st:				
2nd (Jan):				

Kentucky Center for School Safety

# ***Communication***

# Communication During an Emergency

Communication is a critical part of emergency management. School staff and students must be told what is happening and what to do. Parents of students and families of staff members must be informed about the situation, including the status of their child or family member. Parents should be made aware of how information will be disseminated to them during a school emergency.\* Timely contact with law enforcement and other emergency services is necessary for effective response. School Board members must be kept informed and updated. Information must be transmitted to the Central Office and to other affected schools. And finally, the media must be informed and kept updated.

## After an Emergency

The principal will need to notify staff of an event or emergency and keep them informed as additional information becomes available and as plans for management of the situation evolve.

## Automated Notification System

An automated notification system is an excellent way to notify staff of an emergency event when they are not at school. Using a phone or email automated notification system is an excellent method of accurately and quickly communicating with groups of responders and other relevant agencies in a crisis. Prior to the emergency setup distribution lists (phone and email) listing staff, Emergency Management Response Team and local responders. A carefully crafted statement, specifying what is and is not yet known, and what steps may need to be taken should be drafted before the system is activated.

## The Morning Faculty Meeting

An early, brief faculty meeting provides the opportunity to give accurate, updated information about an emergency event/situation itself and to review with staff procedures for the day, including the availability of intervention resources.

## The End-of-Day-One Faculty/Staff Meeting

A brief end-of-day-one meeting provides the opportunity to review day one of an emergency, to update information, and plan for day two. Misinformation or rumors can be addressed before staff members go home or into the community where they are likely to be asked about the situation.

*\*Parent communication should be an ongoing process.*

# Dealing with Rumors

Establishing reliable communication networks is critical for dealing effectively with a potentially detrimental phenomenon often present in emergencies: Rumors. People are going to talk about an emergency. When accurate information is not available, rumors begin and without facts people will speculate. Rumors create a negative perception of the school's ability to manage an emergency. The most effective strategy for combating rumors is to provide facts as soon as possible.

- All information should go through the school district's Public Information Officer.
- The Public Information Officer will provide factual, written information that is permitted to be shared with the public. Employees should not deviate from the information provided by the Public Information Officer.
- Identify and notify internal groups including administrators, teachers, custodians, secretaries, teaching assistants, cafeteria workers, bus drivers, etc. These are ancillary sources of information and are likely to be contacted in their neighborhoods, at grocery stores, etc. It is critical that they have accurate information because what they know (or are speculating about) will be passed on. A faculty/staff meeting should be held before staff members go home so that what is (and is not) known can be clearly communicated.
- Clerical staff who answer the telephone at the school and at the Central Office must know which information can be shared and which information cannot be shared. They must be kept informed of inaccurate information which is circulating so they can help correct misinformation. Designating a few persons to answer calls helps control the circulating of misinformation. Have a scripted preapproved statement for faxing, e-mailing and telephone communication.
- The media can also help control rumors; ask them to provide frequent updates to the public, particularly providing accurate information where rumors need to be dispelled.
- After an immediate emergency has passed, public meetings may be helpful. It provides an opportunity for people to ask questions and to receive accurate information. A follow-up public meeting may also be helpful in restoring the community's confidence in the school's ability to manage emergencies and to provide a safe environment.

# Technology

Technology can be a very effective tool for communication during an emergency. Common tools include the following:

1. **Telephones** - It is recommended that schools should have at least one unpublished number. Check with the phone company to see if there are unused lines in the school's control panel which could be activated if needed. Use standard jacks and mark them clearly so emergency personnel can find them. There are automated phone systems for contacting "sub-populations" within your school instantly. They can be very effective in getting a quick standardized message to staff and/ or parents.
2. **Intercom systems** - Ideally, systems should include teacher-initiated communications with the office and use a handset rather than a wall-mounted speaker. Instructions for use of the intercom system should be posted near the controls in the office area.
3. **Bullhorns and megaphones** - Battery-powered megaphones can be effective for communication in an emergency when other types of technology are not available and should be part of the school's emergency toolbox. Following procedures governing the storage and use will help ensure availability.
4. **Two-way radios** - Two-way radios provide a reliable method of communication between rooms and buildings at a single site. All staff should be trained to operate the two-way radio. It is suggested that one be available for the principal, assistant principal, school resource officer, custodians, guidance counselors, secretary and for a representative from each grade level. A designated teacher from each grade level should be given one during a crisis. It is recommended that the school have an extra one available in the office to be used as needed during a crisis situation. Remember that some electronic devices can trigger bombs. A designated frequency on two-way radios should be shared with Emergency Responders to act as a redundant communication mode.
5. **Computers** - Existing computers may be used for communication both within the school and to other sites. E-mail may be a useful tool for updating information for staff, Central Office, other schools in an affected area, and possibly for other agencies. School websites can inform the public of the current situation at school and other pertinent information.
6. **Fax machines** - Possible uses include an off-campus accident where lists of students and staff members are involved, their locations, and needed telephone numbers can be quickly and accurately communicated. Medical information, release forms, and authorizations can be faxed and returned in emergencies.
7. **Cellular telephones** - These phones may be the only tool working when electric service is out; they are useful to staff who may be en route to or from a site. Be aware however, that cell phones are often the first form of communication to fail in a large scale emergency (this is due to overloading networks). They can also trigger bombs. Various apps are available to help locate an individual or allow for group communication for specific incidents.
8. **"Panic buttons"** - "Panic buttons" may be connected directly to the police or other emergency services. In some communities, there is an immediate response; in others, the police or fire departments call the school to confirm the emergency.
9. **Alarm systems** - Bells or buzzers which may be sounded in different ways to signal different types of emergencies - for example, fire, severe weather, or special alert (with instructions to follow). When possible verbal commands should be given in plain language (do not rely upon code words or phrases). This process simply decreases the chance for error or misunderstanding.

# Strategies with Parents and Community

An important aspect of managing emergencies is dealing effectively with parent reactions and community agencies. Communication with parents and the community is best begun before an emergency occurs. Some useful strategies include the following:

1. Inform parents about the school's emergency plan, its objectives, and the need for it; such information can be included in a school newsletter, local public access media, websites or other informational materials prepared for parents.
  - a. Lists of personnel on emergency teams and their specific roles in a crisis should not be detailed and released to parent or listed on community information. Many of these lists include private information such as cell phone numbers.
  - b. The details of the emergency plan should remain confidential; care should be given not to publish evacuation routes, floor plans or other information that could be used by individuals seeking targets for predatory actions.
2. Develop a school climate that nurtures relationships with parents so that they trust and feel comfortable calling school personnel to notify of a possible emergency.
3. Develop materials that may be needed, including:
  - a. Drafts of letters to parents informing them of what happened.
  - b. Information regarding possible reactions to a variety of safety situations for use by parents as they talk with their children.
  - c. Steps the school and school district are taking to handle the situation.
4. Develop a list of community resources which may be helpful to parents or helpful to the school in the event of an emergency.
5. Identify parents who are willing to volunteer in case of an emergency and include them in preparation efforts and training.

# Sharing Information with Parents

In the event of an emergency, parents have very specific information needs. First, parents want to know their children are safe; then, parents want to know the details of the emergency situation, to know how it is being handled, and to know that the children will be safe in the future. The first reactions are likely to involve *fear*. Upon learning of an incident at the school, parents are likely to descend upon the school in search of their child or to telephone, frantically seeking information. Establishing a system for responding quickly to parent needs for information is an important part of pre-planning. *Anger* is another common reaction of parents, particularly in the case of senseless acts of violence. In the event of an emergency or disaster:

1. Tell parents exactly what is known to have happened. Do not embellish or speculate.
2. Implement the plan to manage phone calls, traffic control and meet with parents who arrive at school.
3. If deemed necessary, schedule and attend an open question-and-answer meeting for parents as soon after the incident as possible. The meeting will provide an opportunity for school officials to listen and respond to parent concerns (which are helpful in combating rumors and other misinformation) and to work on restoring parental trust in the school.
4. In the event of an incident which involved damage or destruction, an open house for parents and other members of the community to see the school restored to its “normal” state helps everyone get beyond the emergency.
5. During a school-level emergency event the school may utilize (if available) an automated telecommunication device that can be programmed to deliver critical messages in a short period of time. Such messages can be directed to the residences of the students and their parents or guardians attending this particular school.
6. During a school-level emergency, it may be necessary to move students to an alternative site. Parents will need to be notified as to where they need to meet their children (reunification plan). **This area should be designated as part of the overall plan.**

# Communicating with the Media

The following suggestions will promote clear communications with the media:

1. Identify a single information source (typically this will be your designated Public Information Officer).
2. Direct media representatives to one area (on or off campus) where briefings can take place (this should be done in advance so there is a known media staging area). This should not necessarily take place at the site of the event unless the school is showing how normalcy has been restored.
3. Instruct all employees to refer all information and questions to the Media Liaison or Public Information Officer.
4. If the emergency is a death, consult with the deceased student/staff member's family before making a statement.
5. Insist that reporters respect the privacy rights of students and staff.
6. Advise students of the school's student media policy.
7. The school should decide what to say, issue a statement, and answer questions within the limits of confidentiality.
8. Take initiative with news media and let them know what is or is not known about the situation.
9. Emphasize school's/district's good record.
10. Speak to reporters in plain English - not in "educationese."
11. If there is involvement with a criminal case, work in conjunction with law enforcement spokesperson and the local board attorney.
12. Don't try to "kill" a story; don't say, "no comment;" don't speculate; don't try to blame anyone for anything.
13. When communicating, maintain a unified position and message; keep messages concise, clear, and consistent.
14. Contact District Support Team to regularly update.
15. Delay releasing information until facts are verified and the school's position is clear; prepare statements about the situation in advance to read (avoid ad-libbing).
16. Assign sufficient staff to handle phones and keep a log of calls and personal contacts.
17. Express appreciation to all persons who helped handle the emergency.

# Sample Statements to the Media

## Example 1: Bus Accident

Our third grade students were on a field trip when their school bus was involved in an accident on Interstate-75 (I-75). Emergency medical teams have arrived and are transporting students to (NAME) community hospital. Our assistant principal is at the scene and our superintendent is at the hospital. We have established a hotline for parents (or, staff members are calling parents of students involved in the accident.) The hotline number is (NUMBER). Our Emergency Management Response Team is implementing our emergency protocol for bus accidents, including providing support to students and staff.

*Note: Important points made are: preparedness of the school; coordination of efforts with community agencies, access to information for parents; responsible, immediate action taken by school representatives (including those in positions of authority); and support provided for students at the school*

## Example 2: Fight/Death of Student (off campus, after hours)

A fight involving two eleventh-grade students occurred a block from campus at 7:00 PM last night. The incident resulted in the fatal shooting of one of our students. An ongoing investigation is being conducted, but no more is known at this time.”

Our school’s Emergency Management Response Team went into action immediately following the incident and the following actions have been taken: 1) Our Emergency Team met last night and planned a staff meeting before the school day. 2) We notified staff of the meeting. 3) Crisis counseling for students is being provided by Central Office and community resources; 4) A review of our school weapons policy is underway and school security is on alert for potential related violence.

*Note: Important points are: Even though the incident occurred off campus, after hours, the school still has a responsibility to act; the incident is coupled with a re-statement of the district weapons policy; the school demonstrates it is able to handle emergencies by convening an Emergency Management Response Team meeting, by drawing on community resources, and by providing (or accessing) crisis counseling for the students.*

# Levels of Emergencies

It is essential to understand and be prepared for a range of situations from school-based events. The chart below illustrates different levels of emergencies, and the following page describes in greater detail the possible impact of community-level disasters on individual schools.

## School Level Emergencies

Situations in which the scope is limited to school settings and school-based personnel, and no assistance is needed (such as an allergic reaction and use of “Epi pen”)

## District Level Emergencies

These are events where support and involvement is required from school district personnel or members of the District Support Team. Events may include an unexpected death, suicide threats, water or power failure, trespasser, etc. While these events may require help from non-school employees, they do not reach the scope and gravity of community-level disasters needing community-wide support.

## Community Level Emergencies

These include large-scale events during which coordination of services from school, district and local community response agencies is warranted.

Such events include tornado damage to buildings, flooding, fires or explosions, chemical spills requiring evacuation, death of multiple staff or students (as in a bus accident) and/or a hostage situation. In many of these situations the school’s role is to implement protocols until appropriate community agencies respond and assume responsibility (such as police, fire and rescue). However, schools must be prepared to rely on their own resources until help arrives. In addition, schools may be called upon to provide resources for community emergencies.

# **School Plans**

Kentucky Center for School Safety

# ***School Plan***

**Copy of all school plans  
inserted here**

# **Emergency Procedures**

Kentucky Center for School Safety

# ***Emergency Operations***

# Emergency Operations Checklist

Although each situation is different, the following is intended as a general listing of actions to consider when faced with an emergency or critical incident.

- ☐ Take a deep breath, don't panic, verify information
- ☐ Activate school's Emergency Response Team, Incident Command System (ICS); activate and assign duties as needed:
  - Safety Official (overall safety conditions of campus)
  - Public Information Official (media relations, contact)
  - Liaison Official (coordinate with outside agencies)
  - Planning/Intelligence (incident time log, evaluate information)
  - Operations (student accounting and release, facilities, medical, crisis intervention and response, food and water)
  - Logistics (communications and supplies)
  - Administration/Finance (documentation, record keeping)
- ☐ Determine whether to call 911, whether to implement Universal Emergency Procedures or school specific Emergency Response Protocols
- ☐ Notify and request assistance from the District Support Team to:
  - Assist with planning for a response and implementing protocols
  - Provide recovery support to students
- ☐ Establish a Command Post for communication and incident management
- ☐ Bring "emergency toolbox" to Command Post (inside or outside)
- ☐ Hold emergency all-staff meeting (before and/or after school day) to:
  - Advise staff of the known facts and provide written statement
  - Support their concerns and emotions
  - Provide classroom assistance if needed
  - Outline schedule for the day; modify day's schedule if needed
  - Identify resources available to teachers and students
- ☐ Establish contact with parents/family members of affected students to offer support, to determine assistance needed, and (in the event of a death) for information regarding visitation/funeral arrangements
- ☐ Prepare formal statement or announcement to students, parents, and media; provide statement to secretaries, staff, etc.
- ☐ Expand span of Incident Command System as needed, deactivate ICS when activities are completed
- ☐ Review and implement "Recovery" activities
- ☐ Document actions taken, secure records as legal documents

# Universal Emergency Procedures

Universal Emergency Procedures are a set of standard, clear directives that may be implemented across a variety of emergency situations. When an emergency begins, the principal, as Incident Commander, will decide which Universal Emergency Procedures to implement, based on the situation.

**There are six basic procedures which can be utilized in responding to various emergencies:**

**1 – Evacuation**

**3 – Severe Weather Safe Area**

**5 – Lockdown**

**2 – Reverse Evacuation**

**4 – Shelter in Place**

**6 – Drop, Cover and Hold**

<p><b>1 EVACUATION</b> (For use when conditions outside are safer than inside)</p> <p><b>When announcement is made or alarm sounded:</b></p> <ul style="list-style-type: none"> <li>• Take the closest and safest way out as posted (use secondary route if primary route is blocked or hazardous)</li> <li>• Take class roster for student accounting</li> <li>• Assist those needing special assistance</li> <li>• Do not stop for student/staff belongings</li> <li>• Go to designated Assembly Area</li> <li>• Check for injuries</li> <li>• Take attendance; report according to Student Accounting and Release procedures</li> <li>• BE QUIET!</li> <li>• Wait for further instructions</li> </ul>	<p><b>4 SHELTER IN PLACE</b> (For use in chemical release scenarios)</p> <p><b>When the announcement is made:</b></p> <ul style="list-style-type: none"> <li>• Turn off HVAC System</li> <li>• Students are to be cleared from the halls immediately and to report to nearest available classroom or other designated location</li> <li>• Assist those needing special assistance</li> <li>• Close and tape all windows and doors and seal the gap between bottom of the door and the floor (chemical release)</li> <li>• Take attendance; report according to Student Accounting and Release procedures</li> <li>• Do not allow anyone to leave the classroom</li> <li>• Stay away from all doors and windows</li> <li>• BE QUIET!</li> <li>• Wait for further instructions</li> </ul>
<p><b>2 REVERSE EVACUATION</b> (For use when conditions inside are safer than outside)</p> <p><b>When the announcement is made:</b></p> <ul style="list-style-type: none"> <li>• Move students and staff inside as quickly as possible</li> <li>• Assist those needing special assistance</li> <li>• Report to classroom</li> <li>• Check for injuries</li> <li>• Take attendance; report according to Student Accounting and Release procedures</li> <li>• BE QUIET!</li> <li>• Wait for further instructions</li> </ul>	<p><b>5 LOCKDOWN</b> (For use to protect building occupants from potential dangers in the building)</p> <p><b>Note: school-specific lockdown procedures should be developed by school officials and local law enforcement officials. Please see “Considerations When Developing a School Lockdown Policy” for additional information. See <a href="http://www.kycss.org/lockdown.php">www.kycss.org/lockdown.php</a></b></p> <p><b>When the announcement is made:</b></p> <ul style="list-style-type: none"> <li>• Students are to be cleared from the halls immediately and to report to nearest available classroom</li> <li>• Assist those needing special assistance</li> <li>• Close and lock all windows and doors and do not leave for any reason</li> <li>• Stay away from all doors and windows and move students to interior walls and drop</li> <li>• BE QUIET!</li> <li>• Wait for an official to open the door</li> </ul>
<p><b>3 SEVERE WEATHER SAFE AREA</b> (For use in severe weather emergencies)</p> <p><b>When announcement is made or alarm sounded:</b></p> <ul style="list-style-type: none"> <li>• Take the closest, safest route to shelter in designated safe areas (use secondary route if primary route is blocked or dangerous)</li> <li>• Occupants of portable classrooms shall move to the main building to designated safe areas</li> <li>• Take class roster for student accounting</li> <li>• Take attendance; report according to Student Accounting and Release procedures</li> <li>• Assist those needing special assistance</li> <li>• Do not stop for student/staff belongings</li> <li>• Close all doors</li> <li>• Remain in safe area until the “all clear” is given</li> <li>• BE QUIET!</li> <li>• Wait for further instructions</li> </ul>	<p><b>6 DROP, COVER AND HOLD</b> (For use in earthquake or other imminent danger to building or immediate surroundings)</p> <p><b>When the command “Drop” is made:</b></p> <ul style="list-style-type: none"> <li>• DROP – to the floor, take cover under a nearby desk or table and face away from the windows</li> <li>• COVER - your eyes by leaning your face against your arms</li> <li>• HOLD - on to the table or desk legs, and maintain present location/position</li> <li>• Assist those needing special assistance</li> <li>• BE QUIET!</li> <li>• Wait for further instructions</li> </ul>

# Accidents at School

## Staff actions:

- Report accident to principal, office; call 911 if warranted
- Provide for immediate medical attention (first aid) including performing necessary life-sustaining measures (CPR, AED, etc.), until trained emergency medical services arrives
- For relatively minor events, have students taken to office or school clinic for assistance

## Principal or Designee actions:

- Provide appropriate medical attention, call 911 if needed
- Complete appropriate documentation
- Contact parents, guardians as appropriate to seek appropriate follow-up services if needed
- Document actions and complete incident reports

## Other suggested preventive/supportive actions:

- Post in the office or school clinic the names of building staff who have completed first aid or CPR training
- List names of those trained in use of AED on the box
- Post general procedures in the clinic explaining when parents are to be notified of minor mishaps
- Provide staff with a one-page list of emergency procedures in case of an accident or injury on the playground or in the building (e.g., District First Aid Manual, Bloodborne Pathogen Program)
- Provide in-service training in basic first aid for staff (utilizing the school nurse or other trained health professional)
- Provide a standard location for placement of classroom emergency procedures
- Provide each teacher with information about students in his/her classroom having special medical or physical needs; such conditions might include allergies, fainting, seizures, or diabetes; include procedures that the teacher may follow in these specific emergencies

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Aircraft Crash Emergency

## Crash **INTO** School Building

### Staff Actions:

- Notify principal
- Move students away from immediate vicinity of crash

### Principal / Designee:

- Call 911
- Notify District Support Team, central office
- Determine whether to implement evacuation procedures
- Students and staff should be assembled in an area as far from the crash scene as possible and should be up-hill and up-wind from the crash
- Provide for immediate medical attention (first aid) including performing necessary life-sustaining measures (CPR, AED, etc.), until trained emergency medical services arrives
- Account for all building occupants and determine extent of injuries
- Do not re-enter building until given “all clear” from person in charge
- Document actions and complete incident reports

## Crash **NEAR** School Building (but no damage to building)

### Staff Actions:

- Notify principal
- Move students away from immediate vicinity of crash

### Principal / Designee:

- Call 911
- Initiate **Shelter in Place** plan if warranted
- All students and staff should remain in the buildings; any students or staff outside should initiate reverse evacuation or go to designated area until further instructions are received
- No evacuations should occur unless subsequent explosions or fire endanger the building
- Document actions and complete incident reports

### Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Allergic Reaction

## Possible Symptoms:

- Skin irritation or itching, rash, hives, nasal itching or sneezing, localized swelling, swollen tongue
- Restlessness, sweating, fright, shock
- Shortness of breath, vomiting, cough, hoarseness

## Staff First Actions:

- If imminent risk, call 911
- Notify principal
- Send for immediate help (Operations: First aid, CPR, medical) and medication kit (for known allergies)
- Assist in getting “Epi pen” (Epinephrine) for individuals who carry them, and prescription medications (kept in office)
- Keep student/employee comfortable
- Move only for safety reasons
- Move other students away from immediate vicinity

## Principal / Designee:

- Call 911, depending on circumstances
- Attempt to identify the allergen and route of entry; approximate dosage and time
- Notify parent or guardian
- Administer medication, by order of a doctor, if appropriate; apply ice pack to affected area, keep victim warm or take other actions as indicated
- Observe for respiratory difficulty
- Document actions and complete incident reports

## Preventive/Supportive Actions:

- Emergency health card should be completed by parents for each child, and should be easily accessible by school personnel (i.e. log in Infinite Campus)
- Bus drivers should have emergency sheets for all known acute reactors
- Encourage employees with special health considerations to alert principal and staff

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Assault

**When student(s) or staff has been assaulted use the following guidelines:**

**Staff observing the incident:**

- Report to school principal the type and number of injuries and if assailant is still in area
- Give a good description of the assailant (clothing, height, etc.)
- Give location of the assault
- If assailant has left the building on foot give direction of travel
- If assailant leaves in a vehicle, give description of vehicle, license number and direction of travel
- Administer first aid, and get medical attention if needed

**Principal / Designee:**

- If threat still persists determine whether to initiate Lockdown
- Call 911 if warranted, or notify law enforcement (required by K.R.S.)
- Give type and number of injuries
- Advise if assailant is still in building or on the property
- Give description of assailant
- Give direction of travel and type of vehicle
- Notify District Support Team, Central Office as appropriate
- Document actions and complete incident reports

**Additional steps for our school/facility (if any):**

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Bloodborne Pathogens / Infectious Substances

## Principal, Team, Staff:

- Exercise appropriate caution when informing others about an individual with any infectious disease (follow HIPPA guidelines)
- Make certain that those individuals who contact the child on a regular basis know, and insist they maintain confidentiality. Those individuals would include:
  1. Principal
  2. School nurse
  3. Teachers
  4. School secretary
- Unless directed by a physician otherwise, allow the individual unrestricted school attendance and activities. If a child does not have control of their bodily functions and body fluids, or may bite others, their environment should be more restricted
- Document actions and complete incident reports

## Tips for Teachers:

- Most bloodborne pathogens are not spread through casual contact. It is only spread through sexual contact or through blood or other body fluids
- Daily activities (including sports and classroom functions) should not be altered unless contact resulting in cuts or injury is common or expected
- If a student injures themselves and is bleeding take the following actions:
  1. Don appropriate personal protective equipment
  2. Bandage the wound securely
  3. Isolate any contaminated items for appropriate disposal

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Bomb Threat / Terroristic Threatening

## (Threat Report on Next Page)

**In the event of a Threat to the school or facility:**

### **Staff Actions:**

#### **Receiving a Threat:**

##### **Phone Threat**

All personnel who answer telephone calls from outside sources shall be provided a “Threat Report Checklist”, to be placed within easy reach of their telephone, on which is printed information to ask for and information to listen for in the event a caller makes a bomb threat.

- If possible, signal other staff members to listen and notify the principal and police
- Copy any information displayed in the Caller ID – photograph if able
- Write down the exact wording of the threat
- Keep the caller on the line for as long as possible, use the Threat Checklist to gather as much information as possible
- Record the call if the telephone or other available equipment allows
- Fill out the Threat Checklist immediately
- Be available for interviews with the principal, SRO and other public safety personnel

##### **Verbal Threat**

- If the perpetrator leaves, note which direction they fled
- Notify the principal, SRO and others as appropriate
- Transcribe the threat exactly as it was communicated
- Note the description of the person(s) who made the threat:
  - Name (if known)
  - Gender
  - Race
  - Type/Color of clothing
  - Approximate height and weight (body type)
  - Hair and eye color
  - Voice (loud, deep, accent)
  - Other distinguishing features

### **Written Threat**

- If found within a document, handle the document as little as possible. If found on a portion/ component of the structure, etc. “Do not touch”
- Notify the principal and others as appropriate
- Rewrite the threat exactly as is on another sheet of paper noting the following:
  - Date/time/location that the document was found
  - Any situations or conditions surrounding the discovery/delivery
  - Full names of any person(s) who saw the threat
  - Secure the original item: Do not alter the item in any way
  - If small/removable, place in a clear plastic bag
  - If large/stationary, secure the location
- Photograph the document and or object that the threat is written on

### **Electronic (Social Media) Threat**

- Leave the message open on the computer
- Notify the principal and others as appropriate
- Print, photograph or copy the message and subject line, note the date and time

### **Principal / Designee:**

\*Reference Threat Management Procedure for specific response

- Assess the threat in consultation with local law enforcement / EMS personnel\*
- Conduct building security scan
- Determine if January evacuation is appropriate (assure evacuation route and off site location is safe utilizing police / EMS personnel
- If no evacuation, decide upon appropriate response\*
- Determine appropriate communication procedures\*
- Document actions and complete incident reports

### **Additional steps for our school/facility (if any):**

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

## Post Bomb Threat Report

(Completed by person receiving the call)

Date \_\_\_\_\_ Time of call \_\_\_\_\_

What telephone number was the bomb threat received on? \_\_\_\_\_

Exact language/wording used by the caller \_\_\_\_\_

### Record the following information as provided:

What time is it set for? \_\_\_\_\_ Where is it? \_\_\_\_\_

What does it look like? \_\_\_\_\_

Why are you doing this? \_\_\_\_\_

What is your name? \_\_\_\_\_

### Additional Information (check/fill in):

Gender:     \_\_\_ Male     \_\_\_ Female     Describe \_\_\_\_\_

Age:       \_\_\_ Adult     \_\_\_ Child     Describe/estimate age \_\_\_\_\_

Speech:     \_\_\_ Normal     \_\_\_ Excited     Describe \_\_\_\_\_

Speech:     \_\_\_ Slow     \_\_\_ Fast     Describe \_\_\_\_\_

Did the caller have an accent? Describe: \_\_\_\_\_

Did you recognize the caller's voice? Describe: \_\_\_\_\_

Police \_\_\_\_\_ Time \_\_\_\_\_

# Bus Accident

Each school should maintain a bus folder (hard copy and/or digital) for each bus serving the school. This folder should contain rosters, including an emergency telephone number for each student assigned to ride the bus. The teacher in charge of a special activity trip should prepare trip bus folders, one copy of the student manifest should be placed in the trip folder and a second copy should accompany the teacher on the trip (this procedure can be housed digitally allowing for immediate access and accountability using the district's intranet).

Bus drivers should have designated procedures for handling emergency situations. The following protocol is intended to outline steps to be taken by school personnel should an accident occur.

## In the event of a Bus Accident:

### Staff at the Scene:

- Call 911, if warranted
- Notify principal, bus garage
- School staff at the scene of a bus accident will help to implement basic first aid until emergency medical services and/or law enforcement arrives and takes charge of the emergency
- School staff at the scene of a school bus accident will move all uninjured students to a location that is a safe distance from the accident
- The names of all injured students will be provided to the principal

### Principal / Designee:

- Notify District Support Team
- Ascertain the names of any injured students and the nearest location of any medical treatment facility and document
- Parents/guardians of all students on the bus will be notified as quickly as accurate information is available
- Designated school staff representative will proceed to any medical treatment facility to which an injured student has been taken to assist parents/guardians and to provide support to students, as appropriate
- Document actions and complete incident reports

### Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Chemical Material Spill

Chemical accidents may originate inside or outside building. Examples include: toxic leaks or spills caused by tank, truck, or railroad accident; water treatment/waste treatment plants; industry or laboratory spills, etc.

## Accidents originating **OUTSIDE** the building:

### Staff Actions:

- Notify principal, team
- Move students away from immediate vicinity of danger (if outside, reverse evacuation)
- Observe wind direction by observing flags or leaves and move students appropriately

### Principal / Designee:

- Initiate Shelter in Place, shut off HVAC units
- Call 911, notify District Support Team, Central Office
- Do not leave the building unless instructed to do so; if you must evacuate building or grounds, take care to avoid fumes

## Accidents originating **INSIDE** the building:

### Staff Actions:

- Notify principal
- Move students away from immediate vicinity of danger

### Principal / Designee:

- Check the Material Safety Data Sheet (MSDS) to determine the urgency of situation
- Call 911 if warranted, notify District Support Team, Central Office
- Initiate evacuation plan; avoid the area where the chemical accident occurred and any fumes which are present
- Follow standard student assembly, accounting and reporting procedures; modify assembly area if needed to be upwind, uphill, and upstream from the location of the spill
- Wait for instructions from the emergency responders
- Do not take unsafe actions such as returning to the building before it has been declared safe
- Refrain from lighting matches, candles, or other fires which could cause an explosion or ignite volatile fumes
- Document actions and complete incident reports

# Cyber / Electronic Threat

## Staff Actions:

- Report issue to principal / law enforcement (this includes report of sexting)
- Preserve message, image or media on the original electronic device
- Secure the electronic device

**\*Remember you may not search electronic devices without owner permission or a court order**

## Principal / Designee:

- Evaluate level of cyber threat with school technology coordinator and law enforcement
  - **Level One:** Not highly inflammatory. Generally, incident can be solved in-house (most cyberbullying, etc.)
  - **Level Two:** A student or staff member is in danger of harm (highly emotional issue, repeat offender, sexting, hit list, threat of bodily harm, etc.)
- Depending on severity, call 911, District Support Team and law enforcement
- Conduct investigation and determine all those involved
- Notify parents/guardians of involved students
- Document actions and complete incident reports

- \_\_\_\_\_

# Death or Serious Illness

## (Off campus school event)

### In the event of a reported death or serious illness outside the school setting:

#### Staff Actions:

- Call 911
- Notify principal

#### Principal / Designee:

- Protect the privacy of the family; the school neither gives nor confirms information to the media or others without consent
- Notify District Support Team, Central Office
- Notify teachers prior to school by using an automated notification system (phone and/or email) or during school prior to notification of students
- Schedule a faculty meeting as soon as possible to: share the details that are known, review procedure for the day, and discuss the notification of students, availability of support services and the referral process for students needing assistance
- Contact the family or visit the home to offer help, condolence and support
- Allow students to meet in guidance office or other appropriate place; students should be encouraged to report any other students who might need assistance
- It may be necessary to designate multiple areas for crisis team/grief counselors to meet with affected students
- Notify the bus driver of the students who will not ride home on their bus
- Students who are extremely upset should have parents contacted to determine appropriate support needed after leaving school
- Offer assistance to parents of impacted students
- If deemed necessary by building principal, at the end of the day a faculty meeting may be called to disseminate additional information
- Document actions and complete incident reports

# Earthquake

Because earthquakes can strike without warning, the immediate need is to protect lives by taking the best available cover. All other actions must wait until the tremors subside. If persons are protected from falling objects, the rolling motion of the earth may be frightening but may not be dangerous.

## If inside:

- Initiate Drop, Cover and Hold
- If no cover is available, get against inside doorway or crouch against inside wall and cover head; stay away from outside walls, windows or other expanses of glass, potential falling objects
- Leave doors open to minimize jamming if the building shifts
- Do not attempt to run through building or outside due to risk of falling objects
- After initial shock, prepare for possible aftershock, then initiate evacuation and standard student accounting (avoid all hazards, i.e., electrical wires, broken glass, etc.)

## If outside:

- Move quickly away from building and overhead electrical wires
- Initiate Drop, Cover and Hold
- Initiate accountability procedures
- Do not attempt to enter building until authorized to do so
- Do not light fires or touch fallen wires
- Be alert for instructions from principal

## Assembly Areas:

- Earthquake safe areas will be away from the building and overhead power lines
- Keep everyone away from underground gas and sewer lines
- In the event of aftershocks, students shall be encouraged to remain calm and stay sitting close to the ground
- Administer emergency first aid as needed
- Do not re-enter building until given “all clear” from Incident Commander
- Document actions and complete incident reports

## Additional steps for our school/facility (if any):

- \_\_\_\_\_

- \_\_\_\_\_
- \_\_\_\_\_

# Fire

By law, schools practice fire drills on a monthly basis. In case of an actual fire, implement the practiced evacuation procedures and the following steps:

## In the event of a fire:

- Sound alarm
- Call 911, superintendent, District Support Team
- Implement evacuation procedures to outside Assembly Area
- Implement plan for any students needing special assistance
- Follow standard student accounting procedures
- Some schools use a **card notification system**. The universal colors of a “green card” and a “red card” are used. A “green card” denotes all students are present and all is well and a “red card” signifies a problem
- Do not re-enter building until being given permission to re-enter
- Determine if arrangements need to be made for transportation to alternative location
- Document actions and complete incident reports

*See drill schedule and log sample on page 69*

## Additional steps for our school/facility (if any):

- \_\_\_\_\_

- \_\_\_\_\_
- \_\_\_\_\_

# Gas Leak

All school personnel, including cafeteria managers and custodians, report any suspected gas leak to the principal immediately.

## Staff Actions:

- Notify principal
- Move students from immediate vicinity of danger

## Principal / Designee:

- Call 911, District Support Team
- If the gas leak is internal, implement evacuation procedures. Refrain from lighting matches or candles, and do not turn off/on electrical switches/equipment including cell phones (remember, electrical sparks can trigger an explosion)
- Notify gas company
- Determine whether to move to alternate location
- If extended stay outdoors in inclement weather, contact transportation to provide bus to transport students to partner school or shelter students on buses
- Do not re-enter building until being given permission to do so by emergency personnel
- If the gas leak is external, all students and staff should remain in the buildings; any students or staff outside should initiate Reverse Evacuation or follow Shelter in Place (seal off windows and doors) until further instructions are received
- Document actions and complete incident reports

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Hostage Situation / Kidnapping

**Staff Actions:**

- Notify principal
- Keep all students in their classrooms until further notice

**Principal / Designee:**

- Initiate Lockdown
- Call 911, superintendent, District Support Team
- Notify all students outside their classrooms (including those outside the building) to report to the nearest safe area
- Under no circumstances should the students be evacuated from the building without approval and/or assistance
- If the hostage taker can be contained in one section of the building, students should be moved from exposed areas to a safer part of the building
- Document actions and complete incident reports

**Additional steps for our school/facility (if any):**

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Infectious Diseases

## Principal / Designee, Staff:

- Exercise appropriate caution and discretion when informing others about an individual with an infectious disease
- “An educational agency or institution may disclose personally identifiable information from an education record to appropriate parties, including parents of an eligible student, in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.” (FERPA)
- Notify appropriate individuals who are in contact with the child on a regular basis, and insist they maintain confidentiality. Those individuals would include:
  1. Principal
  2. School nurse
  3. Teachers / Aides
  4. School secretary
  5. Counselors
- Consult with school nurse, central office and/or health department on potential for outbreak
- Instruct custodial staff to disinfect all effected surfaces
- Determine whether child stays in school or if school closing is appropriate
- Document actions and complete incident reports

## Preventative Measures:

- Encourage students, parents, and staff to take everyday preventive actions to stop the spread of germs (CDC, <http://www.cdc.gov/> )
- Encourage students and staff to stay home when sick
- Encourage respiratory etiquette among students and staff through education and the provision of supplies
- Encourage hand hygiene among students and staff through education, scheduled time for hand washing, and the provision of supplies
- Encourage students and staff to keep their hands away from their nose, mouth, and eyes
- Encourage routine surface cleaning through education, policy, and the provision of supplies

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Missing Person

## Staff Actions

- Notify the principal with description of missing person and description of suspect if known
- Move other children (if present) away from area

## Principal / Designee:

- Call 911
- Notify District Support Team, central office
- Contact the family of the missing person to establish a communication plan
- Assemble the appropriate Emergency Response Team members to manage the crisis
- If the incident occurs during the school day, classroom routine should be maintained
- Conduct immediate search of school building and grounds
- Provide a picture and obtain a full description of the missing person (including clothing) to assist the police
- In cases of kidnapping/abduction, obtain a description of the suspect from witnesses
- When the person is found, contact the appropriate parties as needed
- Prepare an outline of the situation for staff; give factual information, as appropriate, to allow them to respond to students' questions
- Prepare an appropriate notice (preferably in writing) for parents/guardians
- If appropriate, arrange for counseling assistance for students
- Call emergency staff meeting if necessary
- Document actions and complete incident reports

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Poisoning

## Immediate Actions:

- Call 911
- Call the Poison Control Center Hotline 1-800-222-1222
- Administer first aid directed by Poison Control Center
- Notify principal
- Utilize building personnel with knowledge of poisonous materials, first aid training, etc. using Safety Data Sheets (SDS)
- Seek additional medical attention as indicated
- School official to notify parents/guardians
- In the event of a staff member who has been poisoned, school official should notify spouse or emergency contact
- Document actions and complete incident reports

## Preventive Measures:

- Keep poisonous materials in a locked and secure location
- Post the Poison Control Center emergency number in the front office, school clinic, etc.
- Post the names of building personnel who have special paramedic, first aid training, or other special lifesaving or life-sustaining training
- Provide staff with information on possible poisonous materials in the building
- Make sure that Safety Data Sheets are present

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Rape / Sexual Abuse

When a school is notified that a rape or other sexual abuse may have occurred, the Emergency Response Team, the District's Support Team and school personnel must protect the identity and right to privacy of the alleged victim and the alleged perpetrator. News of the incident should be contained as much as possible. The services provided to the victim and her/his family must be kept confidential and should be coordinated with outside providers, such as a rape crisis center, children's advocacy center, or hospital emergency room.

## **Rape / Sexual Abuse becomes a crisis to be managed by school staff only when one or more of the following conditions exist:**

- A rape or other sexual abuse occurs on campus
- A member of the alleged victim's family requests intervention
- The alleged victim's friends request intervention
- Rumors and myths of the alleged incident are widespread and damaging
- Students witness police action or emergency services response

## **When one or more of the above conditions exists, the following should be implemented:**

- Confidentiality should be maintained during the investigation (by all staff members)
- Ensure the short-term physical safety of the student
- The school nurse, counselor or other staff shall administer first aid and secure immediate medical treatment
- Notify appropriate law enforcement, and/or rape crisis center
- Designate the school counselor or staff member closest to the alleged victim to review the types of support she or he may need
- Determine which peers close to the victim may need support
- Take action to control rumors
- Store all records related to rape or other sexual abuse incident and services provided in a confidential file not available to any and/or all staff

## **Additional steps for our school/facility (if any):**

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Suicide

## (5 page section)

### INTRODUCTION

Hinting, writing, or talking about suicide is a call for help and must be taken seriously. When confronted with a situation in which life-threatening behavior is present, immediate mobilization of all appropriate resources is paramount. Under such conditions, commitment to student confidentiality is superseded by the need to initiate lifesaving intervention(s).

The following classifications offer three (3) levels of suicide risk with students:

- 1) **Suicidal Threat or Ideation**
- 2) **Suicide Attempt at School**
- 3) **Suicide Completed**

### Do's and Don'ts Regarding Suicidal Ideation

- **DO LISTEN** to what the student is saying and take the suicidal threat seriously.
  - **DO GET HELP** by contacting a school counselor, psychologist, principal or other appropriate resource. Never attempt to handle a potential suicide by yourself.
  - **DO OBSERVE** the student's nonverbal behavior. Facial expressions, body language, and other overt signs are often more telling than what the student says.
  - **DO ASK** whether the student is thinking about suicide. If the indication is "yes," ask how she/he plans to do it and what steps have already been taken.
  - **DO ASSURE** the person that you care and you will find help that will keep her/him safe.
  - **DO STAY** with the student, and if possible, assist with transfer to appropriate mental health professional. The student has placed trust in you, so you must help transfer that trust to another person.
- 
- **DON'T LEAVE** the student alone for even a minute.
  - **DON'T ACT** shocked, don't allow yourself to be sworn to secrecy, or don't ignore the threat.
  - **DON'T LET** the student convince you that the crisis is over. Often the most dangerous time is precisely when the person seems to be feeling better. Sometimes the student may appear happy and relaxed simply because they have come to a decision (even if that decision is suicide).
  - **DON'T TAKE** too much upon yourself. Your responsibility to the student in this situation is limited to listening, being supportive and getting her/him to a trained mental health professional/therapist (immediately.)

# Suicidal Threat or Ideation

**In the event a staff member has reason to believe that a student is a suicide risk or has made a suicidal threat they should:**

## **Staff Actions:**

- Keep the student under continuous adult supervision
- Notify the principal, counselor, social worker or school psychologist, but do not leave the student alone

## **Principal / Designee, Counselor:**

After meeting with the student, as advised by the principal, the counselor or other mental health professional shall:

- Immediately contact the student's parents/guardians and make appropriate recommendations for treatment
- Recommend that parents make an immediate contact with a mental health professional. If requested, provide the parents/guardians the names and phone numbers of mental health resources (agencies, therapists, hospitals, etc.) If the parent/guardian is unavailable or uncooperative regarding emergency services, contact the Community-Based Services to intervene on behalf of the student (potentially a medical neglect referral)
- It is recommended that a follow-up call to the family be made expressing the school's concern and willingness to cooperate with the appropriate medical agencies as requested
- In collaboration with a specific treatment plan formulated for the student by the treating agency, meet with the student's teachers to alert them of the identified risk(s) and to request that they assist in monitoring the student's behavior
- Document all actions taken on behalf of the student (i.e., referrals, phone contacts, follow-up activities, etc.)

## **Additional steps for our school/facility (if any):**

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Suicide Attempt at School

## In the event of an actual suicide attempt:

### Staff Actions:

- Notify principal
- Ensure the short-term physical safety of the student

### Principal / Designee, Counselor:

- Call 911, District Support Team, Central Office
- School nurse, counselor or other staff shall administer first aid until emergency responders arrive
- The student will be kept under constant observation at all times
- The school principal, (or other designated professional) will communicate with the appropriate school personnel, parents/guardians and counselors to establish an immediate plan of action
- Accompany child to medical facility
- Notify parents of transport
- Follow-up should be made by counselor with parent/guardian to determine appropriate follow-up services needed
- Document all actions taken on behalf of the student (i.e., referrals, phone contacts, follow-up activities, etc.)

### Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Suicide Completed

## (off campus)

School staff should exercise caution when discussing an “apparent suicide” with students. Often there will be ongoing investigations by the police department, and parents or other relatives may be reluctant to accept the terrible nature of the death. When the cause of death is clear, it is best to request permission from the parents to talk about the suicide with other students.

If news of death by suicide is received, the principal or designee shall initiate efforts to address emotional reactions within the school community.

### Staff Actions:

- Notify principal
- Avoid spreading rumors
- Watch for warning signs in other students (such as “copycat” actions)

### Principal / Designee, Counselor:

- Once the death has been confirmed notify District Support Team
- Identify any family member(s) that may be at school and provide crisis counseling
- Do not release the names of other family members who attend the school
- If the media requests information, refrain from discussing any details relating to the deceased student; school staff may wish to describe assistance being offered on behalf of students
- Consider calling a faculty meeting to disclose all relevant facts
- Have school counselor or other appropriate professional describe how students may react to the news and suggest how teachers can address questions and reactions
- Allow time for school staff to ask questions and express their feelings; some staff may be particularly upset and may request and/or require support
- Outline procedures for the remainder of the school day
- Provide support meetings for school personnel if the need exists; refer employees to an Employee Assistance Program (EAP) as indicated
- Compile a list of other students deemed to be at risk; consider immediate counseling opportunities as part of the school and district’s commitment to responsible follow-up and recovery
- Allow students to leave class during the day to receive support offered from school personnel, the District Support Team or other designated volunteer resources or community faith-based persons who have received this specific training
- If the school based Emergency Response Team (ERT) and the District Support Team (DST) deem it appropriate, consider avoiding any large group meetings or assembly of students (in an effort to maintain order and control)

- Consider an after school faculty meeting; the following points may be covered:
  1. Debrief the events of the day
  2. Provide emotional support for all staff
  3. Review the characteristics of high-risk students and compile an additional list based on staff observations of student reactions during the day
  4. Announce the plans made by the family for services
  5. To the extent possible, make efforts to ensure that regular routine is followed
  6. In general, recognize a tragic loss of life, without emphasizing the means of death

**Activities to be avoided include:**

- Special memorial services within the school building
- Flying the school flag at half staff
- Special yearbook notices
- Large student assemblies
- Memorials such as trees/stones, etc.

Suicide should not be ignored nor should it be romanticized or sensationalized; it should be dealt with thoughtfully, carefully and compassionately

**Additional steps for our school/facility (if any):**

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Active Threat Response

(Including hostage situation, intruder, weapons)

**Staff Actions:**

- Initiate lockdown (if able)
- Call 911 (if able)
- Notify principal of situation
- Follow lockdown protocol
- Wait for further instruction

**Principal / Designee:**

- Initiate Lockdown (if not already completed)
- Call 911 (if not already completed)
- Notify Superintendent and District Support Team
- Follow lockdown procedures until clearance given by local law enforcement
- Document actions and complete incident reports

**Additional steps for our school/facility (if any):**

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Assessment of Threat

## (8 page section)

### Introduction

These materials offer a starting point when addressing possible school-violence, but are not intended to be a script or to be implemented in rote fashion. At all times it is expected that school personnel will use professional judgment in assessing and addressing potential threats to safety. It is essential to use “warning signs” and other materials responsibly. The processes described herein offer an opportunity to help maintain school safety by identifying and referring individuals who need help. They **are not** intended to encourage school-wide student profiling, labeling or stigmatizing of individuals.

### In the event of an IMMEDIATE danger:

- Call Law Enforcement or 911
- Take immediate action to secure or isolate the individual posing a threat, and prevent access to potential weapons (if known)
- Take immediate action to move others from harm’s way (in immediate vicinity of event)
- Initiate Lockdown procedures (determine who initiates the lockdown, keep this consistent across the school district)

### If “Warning Signs” are observed, but there is not an imminent risk:

- Have individual or team observing “Warning Signs” complete a Threat Assessment Referral Form (if not completed already)
- Activate appropriate members of (School Based) Emergency Response Team
- Interview the individual of concern (consider using a trained counselor)
- Notify 911, if necessary
- Notify Superintendent, District Support Team and District Pupil Personnel
- Contact parents or legal guardian and obtain a release of information to exchange information between agencies
- Review Warning Signs, Risk Factors, Precipitating Events, Stabilizing Factors by completing Threat Assessment Worksheet
- Make recommendations to parents to seek appropriate mental health services
- Determine level of risk using Risk for Harm Categories (page 107)
- Develop an action plan according to the determined level of risk
- Document referrals, actions taken, follow-up plans, etc.
- Develop a plan to monitor student’s response to actions taken, a “return to school plan” and to review new information as it becomes available

### Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Threat Assessment Referral Form

If you become concerned that an individual may pose a risk for harming himself or others complete this form by stating your concern, checking the Warning Signs of which you are aware, and explaining items checked. Turn it in directly to the school's principal or designee. In an *Imminent* safety threat, notify principal immediately and take immediate action to secure or isolate the individual, and move other students from harm's way.

Individual under concern \_\_\_\_\_ Date of birth \_\_\_\_\_

Person(s) completing this form \_\_\_\_\_ Room/phone \_\_\_\_\_

School \_\_\_\_\_ Date of referral \_\_\_\_\_

**I. Reason for referral** (explain your concerns) \_\_\_\_\_

**II. Imminent Warning Signs** (when an individual displays Imminent Warning Signs; take immediate action to maintain safety, mobilize law enforcement and appropriate school personnel)

- |                                                                                                 |                                                                                  |
|-------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|
| <input type="checkbox"/> 1. Possession and/or use of firearm or other weapon                    | <input type="checkbox"/> 4. Severe rage for seemingly minor reasons              |
| <input type="checkbox"/> 2. Suicide threats or statements                                       | <input type="checkbox"/> 5. Severe destruction of property                       |
| <input type="checkbox"/> 3. Detailed threats of lethal violence (time, place, method, hit list) | <input type="checkbox"/> 6. Serious physical fighting with peers, family, others |

**III. Early Warning Signs** (mark items, then elaborate below)

- |                                                                                                                                                                                                         |                                                                                 |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------|
| <input type="checkbox"/> 7. Social withdrawal or lacking interpersonal skills                                                                                                                           | <input type="checkbox"/> 18. Intolerance for differences, prejudicial attitudes |
| <input type="checkbox"/> 8. Excessive feelings of isolation and being alone                                                                                                                             | <input type="checkbox"/> 19. Drug and alcohol use                               |
| <input type="checkbox"/> 9. Excessive feelings of rejection                                                                                                                                             | <input type="checkbox"/> 20. Affiliation with gangs                             |
| <input type="checkbox"/> 10. Being a victim of violence, teasing, bullying                                                                                                                              | <input type="checkbox"/> 21. Inappropriate access, possession, use of firearms  |
| <input type="checkbox"/> 11. Feelings of being picked on                                                                                                                                                | <input type="checkbox"/> 22. Threats of violence (direct or indirect)           |
| <input type="checkbox"/> 12. Low school interest, poor academic performance                                                                                                                             | <input type="checkbox"/> 23. Talking about weapons or bombs                     |
| <input type="checkbox"/> 13. Expressions of violence in writings and drawings                                                                                                                           | <input type="checkbox"/> 24. Ruminating over perceived injustices               |
| <input type="checkbox"/> 14. Uncontrolled anger                                                                                                                                                         | <input type="checkbox"/> 25. Seeing self as victim of a particular individual   |
| <input type="checkbox"/> 15. Patterns of impulsive and chronic, hitting and bullying                                                                                                                    | <input type="checkbox"/> 26. General statements of distorted, bizarre thoughts  |
| <input type="checkbox"/> 16. History of discipline problems                                                                                                                                             | <input type="checkbox"/> 27. Feelings of being persecuted                       |
| <input type="checkbox"/> 17. History of violent, aggressive and antisocial behavior across settings (i.e., fighting, fire setting, cruelty to animals, vandalism, etc., especially begun before age 12) | <input type="checkbox"/> 28. Obsession with particular person                   |
|                                                                                                                                                                                                         | <input type="checkbox"/> 29. Depression                                         |
|                                                                                                                                                                                                         | <input type="checkbox"/> 30. Marked change in appearance                        |
|                                                                                                                                                                                                         | <input type="checkbox"/> 31. Other _____                                        |

**IV. Explain checked items; describe known Precipitating Events** (use back if needed)

**V. Turn in this form** and any materials you may have which may be necessary to conduct a preliminary risk assessment (i.e., writings, notes, printed e-mail or internet materials, books, drawings, confiscated items, etc.). This information should be routed to the principal or his/her designee.

**FOR OFFICE AND EMERGENCY RESPONSE TEAM USE:**

Date Received: \_\_\_\_\_ School Case Manager assigned to follow referral: \_\_\_\_\_

# Threat Assessment Worksheet (2 pages)

*(To be completed by the School Based Case Worker and staff members who have daily contact with the student of concern)*

Coupled with the Referral Form (which addresses Warning Signs), this outline addresses Risk Factors, Precipitating Events, and Stabilizing Factors. The worksheet is designed to provide a concise way to organize known concerns when conducting a preliminary risk assessment and to list relevant school and agency involvement.

Individual under concern \_\_\_\_\_ Date of birth \_\_\_\_\_

Person(s) completing this form \_\_\_\_\_

Parent/legal guardian name \_\_\_\_\_ Phone \_\_\_\_\_

School \_\_\_\_\_ Date of referral \_\_\_\_\_

**I. School and Agency Involvement (past or present)** *To determine if safety concerns have been noted by others. List name, contact information and date of involvement if known:*

School Law Enforcement or Discipline Referrals \_\_\_\_\_

Special Education, 504, or Under Consideration \_\_\_\_\_

School-Based Mental Health or Social Services \_\_\_\_\_

Family Resource and Youth Services Center \_\_\_\_\_

Community Social Services \_\_\_\_\_

Police, Juvenile Court, Probation Services \_\_\_\_\_

Community Mental Health Services \_\_\_\_\_

Current or prior institutionalization or foster care placement \_\_\_\_\_

Other \_\_\_\_\_

Comments/concerns expressed by any of the above \_\_\_\_\_

**II. Risk Factors** *(indicate if Observed, Documented, or Suspected; circle O, D, S, respectively)*

In possession or has access to weapons (O, D, S) \_\_\_\_\_

History of impulsive violent or other antisocial behavior (O, D, S) \_\_\_\_\_

Child abuse/neglect (O, D, S) \_\_\_\_\_

Isolation or social withdrawal (O, D, S) \_\_\_\_\_

Domestic violence or other family conflict (O, D, S) \_\_\_\_\_

Depression, mental illness, medical ailment (O, D, S) (list current medications) \_\_\_\_\_

Substance abuse or drug trafficking (O, D, S) \_\_\_\_\_

Fire setting (O, D, S) \_\_\_\_\_

## Threat Assessment Worksheet — (Page 2)

### II. Risk Factors *(continued) (indicate Observed, Documented, or Suspected, O, D, S, respectively)*

Bed wetting (O, D, S)\_\_\_\_\_

Cruelty to animals (O, D, S)\_\_\_\_\_

Preoccupation with real or fictional violence (O, D, S)\_\_\_\_\_

Repeated exposure to violence (desensitization) (O, D, S)\_\_\_\_\_

Gang involvement or affiliation (O, D, S)\_\_\_\_\_

Other\_\_\_\_\_

### III. Precipitating Events *(recent triggers which may influence violence)*

Recent public humiliation/embarrassment (whether instigated by adult or peer)\_\_\_\_\_

Boyfriend/girlfriend relationship difficulties\_\_\_\_\_

Death, loss or other traumatic event\_\_\_\_\_

Highly publicized violent act (such as a school shooting)\_\_\_\_\_

Family fight or conflict\_\_\_\_\_

Recent victim of teasing, bullying or abuse\_\_\_\_\_

Other\_\_\_\_\_

### IV. Stabilizing Factors *(factors which may minimize or mitigate likelihood or level of violence)*

Effective parental involvement\_\_\_\_\_

Involved with mental health; list provider or agency (if known)\_\_\_\_\_

Social support networks (church, school, social organizations)\_\_\_\_\_

Close alliance with a supportive adult (counselor, mentor, teacher, minister, etc.)\_\_\_\_\_

Positive, constructive peer group\_\_\_\_\_

Appropriate outlets for anger or other strong feelings\_\_\_\_\_

Positive focus on the future or appropriate future events\_\_\_\_\_

Other\_\_\_\_\_

### V. Category of Risk *(Determine a Risk for Harm (RFH) Category based on available information)*

**Imminent - High - Moderate - Minor - Low/No** (date and time of determination\_\_\_\_\_)

**NOTE:** RFH Categories represent a distinct moment in time and may change from hour to hour, and day to day. Following an initial assessment, it is essential to monitor on-going status, to reassess level of risk according to new information, and to document significant changes.

# Risk (or Threat) Assessment Concepts

- I. **Warning Signs:** A sign or indicator that causes concern for safety.
  - A. **Imminent Warning Sign:** A sign which indicates that an individual is very close to behaving in a way that is potentially dangerous to self or others. Imminent Warning Signs call for *immediate* action by school authorities and law enforcement.
  - B. **Early Warning Signs:** Certain behavioral and emotional signs that, when viewed in a context, may signal a troubled individual. Early Warning Signs call for a referral to a school's Threat Assessment Team for assessment.
- II. **Risk Factors:** Historical or background conditions which may influence the potential for violence. These factors may include family history of violence, prior antisocial behavior, mental health background, and various social factors.
- III. **Precipitating Events:** Recent events or "triggers" which may increase potential for violence. These factors may include recent family conflict, rejection from a significant peer, serious conflict with a teacher, etc.
- IV. **Stabilizing Factors:** Support systems or networks in place for an individual which may *decrease* the likelihood for violence. These factors may include effective parental relationships, positive peer groups, strong relationship with a teacher, counselor or therapist, etc.
- V. **Threat Assessment:** The process of reviewing Warning Signs, Risk Factors, Precipitating Events, and Stabilizing Factors when referring a student of concern to a mental health professional for further assessment. This information is forwarded to the mental health professional in an effort to assist in identifying the threat.

# Risk For Harm Categories

Risk For Harm Categories provide a way for schools to determine and assign a level of risk based on a review of Warning Signs, Risk Factors, Precipitating Events, and Stabilizing Factors. **Based on level of risk**, the Emergency Response Team develops action plans to maintain safety and to help an individual gain access to needed services or interventions. The descriptors following each Category **are not an exhaustive list**, but are provided as a frame of reference.

## Category 1: Imminent Risk for Harm

An individual is, or is very close to, behaving in a way that is potentially dangerous to self or others.

### Examples include:

- Detailed threats of lethal violence
- Suicide threats
- Possession and/or use of firearms or other weapons
- Hit list
- Serious physical fighting, etc.

*Most individuals identified under this category will qualify for immediate hospitalization or arrest.*

### Responses may include:

- Immediate action to secure individual
- Facility lock down
- Security response
- Immediate referral to professional mental health provider
- Parent notification
- Background or records check
- “Return to school plans,” and/or ongoing case management

## Category 2: High Risk for Harm

An individual has displayed significant Early Warning Signs, has significant existing Risk Factors and/or Precipitating Events, and has few Stabilizing Factors. May not qualify for hospitalization or arrest at present, but requires referrals for needed services and active case management.

### Responses may include:

- Immediate action to secure individual
- Security response
- Parent notification
- Psychological consult/evaluation
- Background check

### Category 3: Moderate Risk for Harm

An individual has displayed some Early Warning Signs and may have existing Risk Factors or recent Precipitating Events, but also may have some Stabilizing Factors. There may be evidence of internal emotional distress (depression, social withdrawal, etc.) or of intentional infliction of distress on others (bullying, intimidation, seeking to cause fear, etc.).

**Responses may include:**

- Security response
- Parent notification
- Psychological consult/evaluation
- Background or records check
- Ongoing case management

### Category 4: Minor Risk for Harm

An individual has displayed minor Early Warning Signs, but assessment reveals little history of serious Risk Factors or dangerous behavior. Stabilizing Factors appear to be reasonably well established. There may be evidence of the unintentional infliction of distress on others (insensitive remarks, “teasing” taken too far, etc.).

**Responses may include:**

- Review of school records
- Parent notification
- Psychological consult
- Security response

### Category 5: Low / No Risk for Harm

Upon assessment it appears there is insufficient evidence for any risk for harm. Situations under this category can include misunderstandings, poor decision making, false accusations from peers (seeking to get other peers in trouble), etc.

**Responses may include:**

- Investigation of the situation
- Notification and involvement of others as needed

# Brief Interview Outline for Individual Under Concern

When interviewing an individual about safety concerns, one method is to ask questions which move from general introduction, to fact finding, to recognition of concerns, to assessing support networks, to developing an outline for next steps. **The following questions are not** intended to be a scripted interview, but provide a sample structure for the kinds of questions which may need to be asked. Individuals using this outline are encouraged to use their professional judgment and experience to expand these questions as needed. Note, in general it is good to avoid “yes or no” questions.

1. “Seems like you’ve been having a hard time lately, what’s going on?” (*to establish rapport and trust and to open dialog in a non-threatening way*)
2. “What is your understanding of why you have been asked to come to the office?” (*to review factual events*)
3. “What is your understanding of why school staff are concerned?” (*to determine if student is aware of effect behavior has on others*)
4. “What has been going on recently with you at school?” (*to look into possible precipitating events such as peer conflict, student/teacher interactions, failing grades, etc.; follow appropriate leads*)
5. “How are things going with your family?” (*to look into events such as recent moves, divorce, deaths or losses, conflict*)
6. “What else is going on with you?” (*to look into events outside of school such as community unrest, threats, police involvement, medical issues, etc.*)
7. “Who do you have to talk to or assist you with this situation?” (*to determine what supports or stabilizing factors may be available or in place such as mental health professionals, peer groups, family supports, church groups, etc.*)
8. “Given (whatever is going on), what are you planning to do?” or, “What are you thinking about doing?” (*follow-up on appropriate leads, including the level of detail in stated plans, ability to carry out plans, etc.*) **(NOTE: If there is an IMMINENT RISK take immediate action to maintain safety by contacting school security and/or 911).**
9. Close with a statement that describes short term next steps (i.e., “I’ll need to contact your parents to talk about...”, “I will also need to speak with the principal and the assistant principals for possible further action(s) and we will need to devise a plan for next steps). Try to determine student’s mood prior to his/her departure, and alert others if necessary.

# Threat of Harm

## (Including Active Shooter)

These materials offer a starting point when addressing possible school-violence, but are not intended to be a script or to be implemented in rote fashion. At all times it is expected that school personnel will use professional judgment in assessing and addressing potential threats to safety. It is essential to use “warning signs” and other materials responsibly.

### Staff action:

- Initiate lockdown procedures / barricade door if possible
- If not in an area that can be secured, run out of the building and as far as you can to a safe location
- If lockdown and running away aren’t possible, attempt to disrupt or incapacitate the person causing harm (this is a last resort)

### Principal / Designee:

- Call 911, superintendent, District Support Team
- Attempt to determine:
  - Location of the threat and number of persons involved
  - Physical description of persons in harm
  - Number and type of weapons being used
- Document actions and complete incident reports

### Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Weather Related Emergency

**Watches:** Indicate that conditions are right for development of a weather hazard. *Watches* cover a larger area than *Warnings*. Watches are issued by the National Weather Service Office Severe Storm Prediction Center hours before the anticipated event is forecast to occur.

**Warnings:** Indicate that a hazard is imminent and the probability of occurrence is extremely high. Warnings are issued based on eyewitness reports or identification of specific severe weather signatures on Doppler Radar. Warnings may be issued within minutes of the arrival of most severe weather events. In the case of winter storm warnings, those warnings are often issued hours before the arrival of the weather system. A NOAA Weather Radio, with battery backup, should be installed in all school buildings.

**Advisories:** Issued when weather is expected to disrupt normal routines, but is not expected to be life threatening (e.g., 2-3 inches of snow, dense fog, etc.). Advisory lead times are the same as Watches.

## Upon Issuance of a Watch or Advisory

### Principal / Designee:

- Activate appropriate members of school Emergency Response Team to be alert for possible change in weather status
- Monitor weather reports for change in conditions
- Document actions and complete incident reports

## Upon Issuance of a Warning

### Principal / Designee:

- Implement procedure for use of Safe Zones for Severe Weather
- All students and staff proceed to designated Safe Zones for Severe Weather
- Remain quiet to hear further instructions
- Occupants of portable classrooms should move quickly to the main building to designated Safe Zones for Severe Weather
- Follow standard student accounting and reporting procedures
- Remain in the Safe Zones for Severe Weather until the “all clear” is given
- In the event of building damage, students should be evacuated to safer areas of the building or away from the building
- If evacuation occurs, do not re-enter the building until given the “all clear”
- Document actions and complete incident reports

### Additional steps for our school/facility (if any):

# Recovery

Kentucky Center for School Safety

# ***Recovery***

# Key Components of Recovery

Schools and their larger community are confronted with putting the pieces back together following sudden, tragic events such as death or serious injury to students and staff, bus accidents, fires, natural or man-made disasters and violence. The aftermath of tragedies on individual children and adults is not simple to predict. According to the National Institute of Mental Health, research indicates that both adults and children demonstrate a wide range of reactions following a catastrophic event.

The goal after an emergency is to return to the business of learning and restore the infrastructure of the school as quickly as possible. There are four key components of recovery that need to be addressed so that a smooth transition can be achieved back to a relative state of normalcy and the healing process can begin. They are:

1. **Emotional Recovery**
2. **Academic Recovery**
3. **Physical/Structural Recovery**
4. **Business/Fiscal Recovery**

## Emotional Recovery

The purpose of emotional recovery is to promote coping and resiliency for students, staff, and their families following an emergency or crisis. An assessment of their emotional needs is important to determine those who will need intervention by a school counselor, school psychologist, or other mental health professional. Community based resources need to be identified prior to an emergency and available for families, who may seek treatment. Planning for emotional recovery involves establishing key community partnerships, developing policies, providing training, and developing memorandum of understanding (MOU).

For some trauma victims, adverse effects fade with emotional support and the passage of time. Others are more deeply affected and experience long-term consequences. These reactions are normal responses to an abnormal event. Although no one can predict who will experience the most severe reaction to trauma, the more direct the exposure to the event, the higher the risk for emotional harm.

According to the **National Institute of Mental Health**, research indicates that both adults and children demonstrate a wide range of reactions following a catastrophic event. The range of human responses can include physical, cognitive and emotional symptoms including:

- Nausea
- Sleep Disturbance
- Slowed thinking
- Bad memories
- Regressed behavior
- Anxiety
- Guilt
- Depression
- Anger
- Various other responses

## Suggestions for Schools

- Restoring a learning environment as quickly as possible
- Modeling how to recover from the event
- Maintaining basic educational goals

## Suggestions for administrative staff, counselors and teachers

- Reducing conflict among groups
- Creating working partnerships among groups inside and outside of the school
- Following familiar school routines
- Acknowledging the trauma through shared activities and observances
- Representing safety and security
- Supporting children and their families
- Creating opportunities to support caregivers
- Having trained crisis intervention personnel be highly visible in the schools following a crisis
- Remembering that children and their communities are resilient when supported adequately

## Academic Recovery

The following collection of recovery measures is designed to assist teachers and other professionals as they help students as well as adults begin the recovery and healing process. It is essential for school administrators to recognize that recovery is a long-term process of supporting normal people who have experienced abnormal stressors. Initially, individuals may be in shock and may require support to meet basic physical and social support needs. Restoring structure and routine is the key purpose of Academic Recovery and a quick return to “a normal school day” will enhance the healing process.

### Short Term Academic Considerations:

- Quick decision making regarding school/academic routines
- Brief administrators and staff
- Communicate with parents/guardians on events and the plan
- In general, maintaining the school routine is helpful
- Can the school remain open?
- Can the school routine be maintained? Modified?
- Are academic materials needed?

In the months and years that follow a critical incident, individuals may require additional assistance and continued academic support.

### Long Term Academic Considerations:

- Arrange for Homebound/tutoring services for students unable to attend school
- Encourage and support students in the hospital
- Rearrange tests or assignments
- Determine curriculum “triggers”
- Allow for periodic visits to school counselors (around anniversaries, similar events, etc.)

## Physical / Structural Recovery

In the aftermath of a crisis, buildings and grounds may need repairing, repainting and/or landscaping. Restoring facilities to enable the educational operations is an essential part of the planning process. Relocation of educational services and administrative operations may be necessary. Communication will be key with all stakeholders; students, staff, parents and community.

### Considerations for Physical Recovery:

- Assess building/structural component (e.g., Damage Assessment Team)
- Ensure human safety at educational sites and staff availability to teach
- Resume transportation and food services
- Determine availability of equipment and supplies (books)

## Business / Fiscal Recovery

Critical business functions within the school/district have to be restored as soon as possible after the occurrence of an emergency or crisis. It is imperative that the staff are supported. Administrative functions such as payroll systems, accounting departments and personnel records will be necessary for full operation of the school district. Unexpected expenses can tax the budget or large dedicated donations and gifts can require time and resources to manage.

### Considerations for Business Recovery:

- Determine responsibilities to continue educational function
- Identify, in advance, who has responsibility for closing schools, or sending students/staff to alternate locations
- Identify who is responsible for restoring which business functions for schools/districts
- Identify succession plans
- Ensure systems are in place for rapid contract execution in the event of an emergency
- Institute a system for registering out of district students, and for registering students into other schools

# General Strategies for Follow-up to Emergencies / Critical Incidents

The following information may be useful in the days and weeks following an emergency. Long-term follow-up procedures are also listed.

## The Day After: Workday Two of Emergency Management

Convene Emergency Response Team and faculty/staff members to update them on any additional information/procedures.

1. In case of death, provide funeral/visitation information.
2. Identify students and staff in need of follow-up support and assign staff members to monitor vulnerable students:
  - Coordinate counseling opportunities for students
  - Announce ongoing support for students with place, time, and staff facilitator
  - Provide parents with a list of community resources available to students and their families
3. Convene District Support Team to assist with debriefing.
  - Assess system-wide support needs, and develop planned intervention strategies
  - Discuss successes and problems
  - Discuss actions to improve the response (After Action Reporting)
4. Allow staff the opportunity to discuss their feelings and reactions to the incident. The Emergency Response Team should provide a list of suggested readings to teachers, parents and students. (i.e., handouts later in this chapter).
5. Develop a process for screening and registering volunteers.
6. Develop a process for inventorying district and donated supplies.

## Long-Term Follow-up and Evaluation

1. Amend Emergency Response Protocols if needed. The After Action Reporting process is very helpful in this area. This strategy is designed to identify and record perceived strengths and weaknesses in the overall activities that were offered.
2. Write thank-you notes to people who provided support during the emergency.
3. Be alert to anniversaries and holidays. Often students and staff will experience an “anniversary” trigger reaction the following month(s) or year(s) on the date of the emergency, or when similar crises occur.

# Critical Incident Stress Management (CISM)

Critical Incident Stress Management is a comprehensive, integrated multi-component crisis intervention system. CISM services provide a framework for the application of education and crisis intervention during the acute stage following a critical incident. These services enhance and compliment the delivery of traditional mental health services and include:

1. **Pre-crisis preparation:** Working with schools to help set expectations for what to do when a critical incident occurs.
2. **Individual consultation:** A structured one-to-one technique used by a trained counselor or professional after a critical incident.
3. **Briefing:** A presentation to groups following a crisis or critical incident to share information, reduce and dispel rumors, and provide details of action plans.
4. **Defusing:** A group crisis intervention technique conducted by a trained facilitator, usually occurring in the first 12-24 hours after a critical incident.
5. **Debriefing** (a.k.a., Critical Incident Stress Debriefing or CISD). A structured small-group process targeted toward mitigating or resolving the psychological distress associated with a critical incident or traumatic event, usually occurring in the first 10 days following an event.
6. **Parent/family/organization consultation:** A group process conducted to provide ongoing education and support to families, parent groups or organizations following a critical incident.
7. **Referral/follow-up:** A process to assure that individuals experiencing intense symptoms and who need ongoing support will be referred for appropriate mental health services.

*One common way to organize the above interventions is to set up a “Drop in Room.” A Drop in Room is a safe, welcoming place for students or staff to gather during the school day for group or individual support from trained team members.*

# Teachers Helping Children After a Critical Incident

This resource was designed to help teachers assist children and is useful for general disasters as well as emergencies that occur in the lives of individual children.

Emergencies are very traumatic events for children. It's difficult for them to understand and accept that there are events in their lives that can't be controlled or predicted. Worst of all, we adults can't "fix" a disaster, can't solve it, and can't keep it from happening again.

## Ways Teachers Can Assist Students

- Cope with your own natural feelings of helplessness, fear, anger, until you do this, you won't be able to effectively help the children
- Learn to recognize the signs and symptoms of distress and post-traumatic stress reactions
- Put the emergency or critical incident in context; provide a perspective
- Communicate a positive "I'm not helpless" attitude
- Start the healing process; help children to feel relieved and soothed
- Identify children who may need intervention – refer to the appropriate mental health care profession

# Information Sheet to Share with Parents

## Helping Your Child After A Crisis:

Children may be especially upset and express feelings about the disaster. These reactions are normal and usually will not last long. Listed below are some behaviors you may see in your child:

- Excessive fear of darkness, separation, or being alone
- Clinging to parents, fear of strangers
- Worry
- Increase in immature behaviors
- Not wanting to go to school
- Changes in eating/sleeping behaviors
- Increase in either aggressive behavior or shyness
- Bed wetting or thumb sucking
- Persistent nightmares
- Headaches or other physical complaints

## The following will help your child:

- Talk with your child about his/her feelings about the disaster; share your feelings too
- Talk about what happened; give your child information he/she can understand
- Reassure your child that they are safe; you may need to repeat this reassurance often
- Hold and comfort your child often
- Spend extra time with your child at bedtime
- Allow your child to mourn or grieve. If you feel your child is having problems at school, talk to his/her teacher, counselor or principal so you can work together to help him/her

## Ongoing Recovery

Please reread this sheet from time to time in the coming months. Usually a child's emotional response to a crisis will not last long, but some problems may be present or recur for many months afterward. In such cases consideration should be given to making a referral to the community mental health center.

# Disasters and Their Effects

## What is a disaster?

A disaster is a devastating, catastrophic event that can be life threatening and/or injury producing, which may create the following distressful experiences:

### Potential experiences or feelings:

- Sense of fear, worry
- Disruption of home, routine, etc.
- Feeling that one's life was threatened
- Witnessing injuries, death, pain
- Feeling trapped and isolated
- Being out of control of something threatening to life's basics: food, shelter, clothing, people, comfort...even life itself
- Having flashbacks of other catastrophes
- Feeling cut-off from services
- Being separated from loved ones
- Having a sense of mortality
- Feeling "survivor guilt"
- Children who are forced to become "parents" to adults who are scared or worried

## Symptoms of Distress in Children

As a result of traumatic experiences some children will show a variety of symptoms of distress. The teacher must first know a child's baseline ("usual") behavior and cultural/ethnic responses before he/she can identify "unusual" or problem behavior in a child.

### Symptoms:

- Any unusual complaints of illness
- Keeping isolated from the rest of the group
- Child seems so pressured, anxious that he/she somehow dominates, has to distract others, or is otherwise in need of attention
- Changed behavior/appearance
- Resistant to opening up (however, child might just be shy, may have language or cultural barrier)
- No eye contact
- Difficulty concentrating, can't focus
- "Feisty" or hyperactive/silly, giddy
- Any emotional display; crying, "regressed" behavior (less than age-appropriate)
- Lack of emotional expression
- Poor performance
- Can't tolerate change; can't move to next task
- Lethargic, apathetic
- Easily startled, jumpy

# Understanding Age-Appropriate CISM Interventions

When providing Critical Incident Stress Management (CISM, Everly & Mitchell) interventions, it is essential to tailor your approach to the developmental level of the students involved. The following chart illustrates a range of minutes suitable for discussion for different age levels, and from “teacher led” to “counselor led” interventions. In general, younger students need more teacher led interventions using activities (as opposed to “discussion”), while older students benefit from counselor led, verbal discussions.

# The Talking Method and the Drawing Method

## (4 Page section)

In using the General to Specific approach, many methods or activities may be effective. Two suggested methods/techniques to use in your class after a critical incident are: The Talking Method and The Drawing Method. The following pages provide suggested questions or themes, and specific techniques.

### Suggested questions to ask/themes to represent:

- Where were you when it (the disaster/event) happened?
- What were you doing?
- Where were your friends? Where was your family?
- What was your first thought when it happened?
- What did you see? What did you hear?
- What sound did it make? What did you smell?
- Was anyone you know killed or injured?
- What can you do now to help others to feel better?
- How did you feel?
- What did other people around you do (during, after)?
- What was the silliest thing you did?
- Were you or anyone else you know injured?
- What happened to pets or other animals around you?
- What dreams did you have after it?
- What reminds you of it? When do you think about it?
- What do you do differently since the event?
- How do you feel now? What makes you feel better?
- How have you gotten through rough times before?
- What would you do differently if it happened again?
- How did you help others? How would you help next time?
- What can you do now to help others?

### Special Considerations:

- Allow for silence for those children with low language skills, shyness, discomfort, etc.
- Encourage peer support for these children
- The teacher should accommodate the child
- If a child has low English skills, consider asking for a translator or a peer to help the child express in words
- Create a chance for verbal expression in any language

NOTE: As the teacher, you might think of more questions to ask the children. Be sure your questions are “open-ended,” which means they cannot be answered by simply a “Yes” or “No”. Open-ended questions serve to facilitate verbal discussion.

# Talking Method Activities

- Child tells a story (allow metaphors)
- Puppets “tell” or “live” a story
- Have an open discussion - using previous questions, ask for volunteers to begin with, talk general to specific
- Use photos, drawings, etc. to facilitate discussions
- Create a skit, play or do role-playing, related to the critical incident (provide “dress-up” clothes if available, including uniforms if possible to represent emergency workers seen during the disaster, etc.)
- Do “show and tell” related to the event
- Inform/educate the children about the event to make it less threatening to talk/act about
- When people understand their feelings and experiences are normal and can be predicted (even if they are scary feelings) they begin to regain control

Note: Remember to keep yourself in a facilitative/guiding role, not in a role of “control” of the discussions/stories etc. This will be most helpful to the children. Reassure the children by verbally acknowledging and “normalizing” their experiences.

## **For some children, the talking method is not helpful:**

- In some cultures, talking openly is not comfortable, appropriate (or even “polite”)
- Some children have been raised in families where “talking-out one’s feelings” was not possible or supported
- Some children have been raised in situations where talking openly was not practiced or encouraged
- Some children simply prefer not to discuss their feelings openly due to personality type, privacy concerns or lack of trust in the process
- All these reasons should be respected as valid

# Drawing Method

The drawing method is a playful experience to express feelings.

## First introduce drawing a:

- Another way of “talking,” but with pictures instead of words
- A means of expression used by many (point out that some people express themselves by talking, some by singing, some by dancing, some by drawing)
- Remember when introducing drawing of any sort to clearly say that the goal is not to draw a “pretty picture” but rather, a picture of expression
- Drawing should be presented to the child as an option for expression, not as a required activity
- **REMEMBER:** Use previous questions to help lead these activities: A question can become a theme for a drawing

## Drawing Method Activities:

- Draw/write a book together or make journals with pictures
- Do a collective drawing such as a mural (murals tell a “collective story,” develop/support teamwork, and feel “safer” for some children as opposed to individual art)
- Give the mural a “place of honor” in the classroom
- Make the mural accessible for everyday viewing
- Celebrate the mural: use it to demonstrate getting through something tough, or to facilitate discussions
- Take photos/slides of the mural when completed
- Draw aspects of the event (people, places, activities, etc.)
- Suggest lots of options, not specifics (e.g., rather than saying “draw a fireman, helping someone,” say “draw a person you saw doing something helpful...”)
- Create a collage (a variety of materials) using a leading question such as “Where were you when the disaster happened?”
- The teacher may draw/paste on the central image, then the children add photos, magazine pictures, articles, fabric pieces, etc. around theme, or may draw directly onto it
- Collages are the “safest” form of “drawing” because the child is using others’ symbols. The child may feel he/she is “losing less of himself/herself”
- Collages provide “boundaries” for the child; this can act as a safety net (emotionally) for some
- You may also want to look at other pictures (drawings, paintings) and talk about what they communicate
- Avoid the use of paint in this method as it is too “loose” of a medium for a traumatized child; the child might use it to bring up things not easily handled in a classroom
- Allow a full range of expression: some children draw recognizable “things”, others draw “abstracts”; respect all varieties
- Allow children to discard their artwork
- Emphasize to the children that their work will not be judged, graded or necessarily shown to others
- Only exhibit the artwork if a child desires to share with others

- Reassure them that there is no “right way” to draw
- Allow the use of various mediums (pastels, crayons, pencils, markers, etc.)
- It’s preferable to do the drawing method with more than one adult present
- Exercise as little control as possible over the artwork

**Concluding Drawing Activities:**

- A key element of the Drawing Method is the follow-up discussion. This discussion can help to bring closure to the experience, an important step in the process of expressing feelings
- Allow those who want to discuss their drawings to do so
- Others will “close” by listening to others
- Use open-ended questions in this process
- Sometimes a child’s artwork may be especially expressive of his/her feelings; a drawing can give “clues” to some deeper problems or feelings within the child
- Try to “read” the picture in the same way you might read words; what might it be telling you?
- Look at it as a piece of communication, not just fantasy

**Keep in mind:**

- Colors, forms, etc. have different meanings to children of various cultural backgrounds and possibly to different children within each culture
- Regard the artwork as just a part of what’s going on with a child; look at the child with a holistic view
- The best source for what’s going on behind the drawing is the child...ask him/her

# If You Have Concerns:

In both methods (Talking and Drawing), you might notice a child exhibiting more serious problems. If you have concerns, refer those children to your **school counselor**.

NOTE: One sign of successful defusing of your students is that they feel better. Another sign of success might be that the defusing process surfaced other problems that will come to your attention. These problems might take on a variety of forms.

- Symptoms might be the same as those for anxiety or depression (physical symptoms, persistent avoidance of being alone, unrealistic worries about harm)
- Child is not able to “let go” of a memory
- The degree of emotionality and the degree of silence are both clues (be sure to talk with the child and simply ask them quietly, confidentiality, how they are feeling and coping)
- Make note of other physical manifestations of stress (as a result of the impact of the event)
- Be aware of different forms of adjustment in each child
- The teacher is not meant to be in the role of “diagnostician”; refer those children you are concerned about to a school counselor, social worker or school psychologist
- Some children may be predisposed to adverse reactions following a critical incident (generally, these are children who have experienced other loss, relocation, death, abuse, crime, etc.)
- An anniversary date of a disaster or death is a predictable time when memories and associated problems may resurface

## Refer the student if you are unsure:

- Alert parent/guardians of your concerns
- Contact your school counselor/social worker/school psychologist
- Refer the student to the Student Assistance Team (if applicable)
- Consider a referral to mental health professionals in the community

Through using the methods and techniques in this guide and adding your own unique perspective, expertise and energy, you will help children and perhaps, yourself recover from a traumatic experience.

# Classmate Tragedy

The following section is designed to assist the teacher or counselor in preparing the class to help a student who has experienced a tragedy prior to their return to the class.

## Example: Death of a friend or family member

- Explain what is known of the loss
- Ask if other students have experienced the death of a friend or family member?
- Are there things people said or did that made you feel better?
- How do you think our classmate might be feeling?
- What could you say that might help him/her know you care? Guide students' responses towards helpful comments and away from less helpful comments.
- What would you want someone to say to you if you experienced the death of someone close?
- Are there things you could do that may help them feel better?
- We can take our cues from the person that will guide our actions. What might some of those cues be?

## When A Grieving Classmate Returns (First Words):

- The classmate probably feels like he/she is from a different planet when returning to school
- At least say, "hello," "welcome back," "I'm glad to see you," or something similar
- The brave might even say: "I missed you," "I'm so sorry to hear about your \_\_\_'s death."
- Even braver friends might make statements like, "It must be incredibly tough to have your \_\_\_ die."
- Other options include: write a brief note or card, call, etc.
- If your classmate cries, that is okay; you did not cause the grief; offer comfort and a tissue

## Helping the Classmate Adjust to the Class:

- Offer to provide past notes from missed classes
- Offer to provide notes for comparison for the next week or so (your classmate's attention span will probably vary for several weeks)
- Give the classmate your phone number to call if having problems with homework
- Ask your classmate if you can call to check on how homework is going
- Offer to study together in person or over the phone; this might help with both motivation and with concentration; grieving students frequently do not feel like doing school work

## Some Don'ts:

- Don't shun the student, speak to them
- No cliché statements (e.g., "I know how you feel" when nobody knows the unique relationship the classmate had with the deceased)
- Don't expect the person to snap back into their "old self"
- Don't be surprised if classmate seems unaffected by the loss, everybody has his/her own way of grieving
- Don't be afraid to ask appropriate questions about the deceased, like "what did you and your \_\_\_ enjoy together?" (people often like to talk about the people they grieve)
- Just because the classmate may seem to be adjusting to school again, don't assume the grieving has stopped, nor the need for comfort and friendship

# Caring for the Care Provider

## General Reactions to Emergencies or Critical Incidents in Adults:

### First Reactions May Include:

- Numbness, shock, difficulty believing what has occurred or is in the process of occurring
- Physical and mental reactions may be very slow or confused
- Difficulty in decision making; uncertainty about things; it may be difficult to choose a course of action or to make even small judgment calls

### Ongoing Reactions May Include:

- Loss of appetite, difficulty sleeping, loss of interest or pleasure in everyday activities
- Desire to get away from everyone - even family/friends
- Emotional liability; becoming irritable or upset more quickly than usual
- Feelings of fatigue, hopelessness, helplessness
- Digestive problems; headaches or backaches
- Difficulty accepting that the emergency has had an impact or difficulty accepting support from friends and the community

### Some Things That Can Be Helpful:

- Take time to relax and do things you find pleasant; getting away for a few hours with close friends can be helpful
- Stick with your regular routine for a while; avoid making changes, even if it appears to be a positive change
- Get regular exercise or participate in a regular sport; activity soothes anxiety and helps you relax
- Keep your days as simple as possible; avoid taking on any additional responsibilities or new projects
- Tap sources of assistance with your workload - have students, instructional assistants, or volunteers help grade papers, take care of copying, or help with other time-consuming tasks
- If symptoms of stress persist beyond a few weeks or are severe, seek professional help

# Suggestions for Students Attending a Visitation or a Funeral

## Keep in mind:

- Expect to feel nervous when going to a funeral home or a funeral
- Go with a friend or ask a parent to accompany you
- If this is the first time you've seen the parents, simply offer your condolences; just say, "I am so sorry about \_\_\_\_'s death" (this may open a conversation)
- Point out something special to you about the deceased
- If the visitation or funeral is open casket, view the body if you want; you do not have to

## Later Involvement:

- After the funeral you may choose to continue to visit the parents; they may continue to want to see the friends of their deceased child
- Continue to talk about their deceased child from time to time

## When Visiting Grieving Parents

This information should be helpful to students when interacting with the parents of a deceased friend. **Always respect the wishes of grieving parents.** These suggestions must fit the parents' needs and requests, as well as the student's own comfort level.

## First Steps:

- In the vast majority of cases the parents find it comforting to see friends of their deceased child
- If you were a close friend of the deceased and you know the parents, then go visit them at their home
- If you were a friend but had not met the parents (yet they know who you are), you might still visit the home
- Other friends might wait until the visitation or funeral
- Send the parents a note or card

## Communication:

- When you visit, do not worry about what to say; your presence is all that is needed; if you wish to take a flower or anything meaningful, that's all right too
- Don't be afraid you will upset the parents by asking or talking about the deceased; they are already upset
- Just sitting with the parents will most likely fill the silence
- Listen, no matter what the topic
- If you were a really close friend, the parents might be pleased for you to visit the deceased friend's room (if you are comfortable doing so)
- You might ask what you can do for them; ask other relatives what you might do to help
- Do not try to take away the grieving parent's pain
- Talk about the deceased person (grieving people often like telling stories about the deceased, "do you remember the time...")
- Offer suggestions only when advice is asked

# Memorials

When a member of the school dies often people will want to find ways to memorialize the student or staff member. A word of caution, carefully think through the type of tribute you pay to a person who has died.

## Consider these points and examples:

- In general, memorials should focus on the life lived, rather than on the method of death.
- Yearbook memorials should be a regular sized picture with a simple statement such as “We’ll miss you”.
- If a school were to create a permanent or lasting memorial for one person, it would be difficult to refuse a similar memorial for another person. For example, a school that planted a tree for a student who died realized this was needed also for a second death and then a third. The resulting group of trees came to be referred to as “the graveyard” by students. Another school had a “memorial tree” die during one dry summer and had to address the hard feelings of the family who thought the tree had not been given proper care.
- There are many wonderful ways to support student’s as loved one’s do need to be remember, examples include: cards, food, kind words, work parties for relatives, scholarship funds, contributions to a favorite charity, flowers, or being remembered after the urgent time of the tragedy.
- Parents and loved ones especially want to know people miss the person and there was great sadness at the loss; they also want to know people assisted the grieving friends.
- Permanent or lasting memorials are not encouraged as a way for schools to remember someone who died as a result of suicide.

# Suicide

A school's general response to a suicide does not differ markedly from a response to any death. However, some issues exclusive to suicide require specific attention.

School administrators must allow students to grieve the loss of a peer without glorifying the method of death. Over emphasis on a suicide may be interpreted by vulnerable students as a glamorization of the suicidal act. In rare cases this can trigger other individuals with similar tendencies to consider suicide as a viable option.

The following “**DO’s**” and “**DON’Ts**” will help school staff limit glamorization of suicide:

- **Do** acknowledge the suicide as a tragic loss of life
- **Do** provide support for students profoundly affected by the death
- **Don’t** organize school assemblies to honor the deceased student
- **Don’t** dedicate the yearbook or yearbook pages, newspaper articles, proms, athletic events, or advertisements to the deceased individual
- **Don’t** pay tribute to a suicidal act by planting trees, hanging engraved plaques or holding other memorial activities

A suicide in the school community can heighten the likelihood, in the subsequent weeks, of “copycat” suicide attempts and threats among those especially vulnerable to the effects of a suicide. To prevent further tragedies, students considered to be especially susceptible to depression/suicide must be carefully monitored and appropriate action taken if they are identified as high risk. These efforts require an intensive one on one intervention rather than a school wide response.
