# *Executive Summary*

Of the 648,541 students enrolled in Kentucky public schools the overwhelming majority of students, 638,954 (98.52%), did not have a reported law violation during the 2017 - 2018 school year. Of the 9,587 students who did commit a law violation, the vast majority (7905, 82.46%) had only one violation. The other 1682 (17.54%) were responsible for multiple violations during the school year. With a state rate of less than one student (1.48) per hundred, the commission of law violations is not happening with great frequency in the schools.

However, with the goal to reduce the rate as low as possible, analysis of the current data reveals the following:

The total number of law violations for 2017 – 2018 school year (12,093) was an increase of 50.11% from the previous report.

Harassing communications is the number one law violation for 2017 - 2018 and accounted for 26.83% of all law violations. This number increased considerably since the 2016 – 2017 report (n = 112). The second highest violation, marijuana/hashish possession accounted for 15.56% (1882) of all law violations. This number was consistent with previous years.

The disproportionality of race, special education and socio-economic status among student violators continues to be a concern and suggests that a thorough analysis of school-level data is warranted.

The largest number of law violations occurs with ninth graders. This key transition year is also reported as troublesome in studies of retention, failed subjects and attendance.

Although “other” weapon violations, (n=363, 88.75%), predominately involved objects that are capable of being readily used by one person to inflict severe bodily injury upon another person, violations involving a firearm, handgun, or rifle were rare (n=46) in the 2017 - 2018 school year. This number decreased by 20.69% from the previous year. The number of law violations reported for 2017 - 2018 involving a firearm (handgun, rifle, other firearm) only accounts for 0.38% of all law violations.

Violations for terroristic threatening may be underreported. Representatives from the Kentucky Center for School Safety are frequently consulted about anonymous threats that have been uncovered, but cannot be attached to a student. Since only violations that can be assigned to a student are reported, anonymous threats that require school administrators to investigate and respond are not captured in the current data. This may be an area that needs to be addressed in future reporting procedures.

# INTRODUCTION

## **S**chool safety concerns everyone.

A spate of articles lamenting the state of student achievement in Kentucky's schools implies that schools need to concentrate solely on achievement. This fixation on achievement runs contrary to the reality that teachers and students cannot be expected to perform at higher levels when they feel unsafe at school. Parents need schools to provide a secure place to send their children to learn. Educators need a safe and civil environment to facilitate learning. Businesses need schools to be safe to attract good workers to the community. Government and social agencies need schools to be safe to reinforce the safety and security of the community. As important as school achievement is, the safety of our students must be a top priority.

It also follows that since school safety is a concern for everyone in the community it must also be everyone's responsibility. Educators, parents, the business community, government officials, and all citizens have a role to play in school safety.

To this end, the Kentucky Center for School Safety provides this report of demographic and contextual data regarding reported law violations involving students in Kentucky's public schools. Every public school and school district in Kentucky contributed data to this report; ideally, schools, school districts, and communities will use this information to maintain and improve the safety for all of Kentucky's school children.

# Section I:

## Data Collection and Using Your Data

---

The Kentucky Center for School Safety (KCSS) in partnership with the Kentucky Department of Education (KDE) has developed a database using Infinite Campus data from all school districts in the state. Since 2013 - 2014, KDE and KCSS have had the ability to collaborate on school safety data utilizing unique student identifiers. The availability of unique identifier data enables us to establish a better link between law violations and individual characteristics such as socioeconomic status, special education status and race. Moreover, these data allow for examination of the number of violations reported for each student. These are just two of many significant improvements that have become possible through the availability of unique identifier data.

Public schools in Kentucky are required to report all incidents of in-school removal in addition to incidents of expulsion, suspension and corporal punishment. Schools also were required to report all violations involving assault or violence, bullying or harassment, alcohol, drugs, tobacco, or weapons. Based on the reported data for law and board violations, the KDE publishes an annual safe schools statistical report. The 2017 - 2018 safe schools statistical report provided by KDE can be found at <https://education.ky.gov/school/sdfs/Documents/2017-18%20Safe%20Schools%20Annual%20Statistical%20Report.pdf>.

In order to avoid duplication with KDE, the Kentucky Center for School Safety focuses specifically on law violations; board violations are not included in this report. This report provided by KCSS includes an in-depth analysis of reported law violations, and the students associated with the law violations, for the school year 2017 - 2018. The definitions of law violations provided by KDE are included in Appendix A. When considering plans to improve student conduct, school officials are encouraged to use this report, as well as KDE's statistical report, as they both contain important summaries based on Infinite Campus data.

The Kentucky Center for School Safety is committed to working with schools, districts and the Kentucky Department of Education to enhance the quality of the data report. As we continue to review, assess and improve the data collection process, this report will continue to provide richer data to schools and school districts in order that more effective interventions can be planned and implemented.

**Data should always be reviewed in context. For example, a school district with an increase in law violations could be experiencing any or all of the following:**

- 1. A rising level of student misbehavior and school disorder;**
- 2. An administrative emphasis on commission of certain targeted offenses; or**
- 3. A building with physical plant or staffing problems that makes effective supervision of student behavior difficult.**

**Conversely, a school with a decrease in law violations could be experiencing any of the following:**

- 1. A decrease in the level of student misbehavior and school disorder;**
- 2. The assignment of additional personnel to the school, coupled with a more comprehensive supervision plan.**
- 3. The accuracy of the information contained in this report is contingent on original data entered in the Infinite Campus system. Any deviation from KDE's established reporting protocol (e.g., omission of incidents that should have been recorded), as well as general data entry errors (e.g., incorrect or inconsistent coding), will affect the reliability of the data.**

**Additionally, we remind the reader that a slight change in a single or double digit number can have a dramatic impact on percentage changes from one year to the next.**

**Knowing the context around the data changes is crucial. The context should drive the intervention plan.**

## Section II: Reported Law Violations

Public schools in Kentucky reported 12,093 law violations during the 2017 - 2018 school year. Predictably, the largest school district again reported the most law violations (n=5,418), while sixteen reported no law violations for 2017 - 2018. The number of law violations reported for each district for the 2017 - 2018 school year is available in Appendix B.

As shown in **Table 1**, the most common law violation reported for 2017 – 2018 is harassing communications. This violation increased considerably (n= 3245, 2797.3%) since the previous report. Possession or use of marijuana or hashish was the second most common of all law violations reported (n=1882, 15.56%) followed by terroristic threat (n=860, 7.11%). Harassment is a new reporting category for the 2017 – 2018 report and made up 5.81% (n=703) of all law violations. Fourth degree assault (n=650, 5.38%) was the next most common law violation in the 2017 - 2018 school year, followed by alcohol possession and use (n=577, 4.77%), other drug possession and use (n=444, 3.67%), and disorderly conduct (n=443, 3.66%). The number of disorderly conduct violations has decreased considerably (54.00%) since the previous report.

The top five categories in the 2017 - 2018 report account for 60.70% of all law violations while the top two violations, harassing communications and marijuana/hashish possession and use account for more than two in five of all violations (42.40%). No reports were issued for 9 categories of law violations in 2017 - 2018.

\*Reporting procedures for this category changed for some districts from 2014-15 to 2015-16.

These modifications help explain the substantial increase in these violations.

\*\*Kentucky Department of Education (KDE) uses the "Other" category when a violation does not fit into an existing specific law violation category.

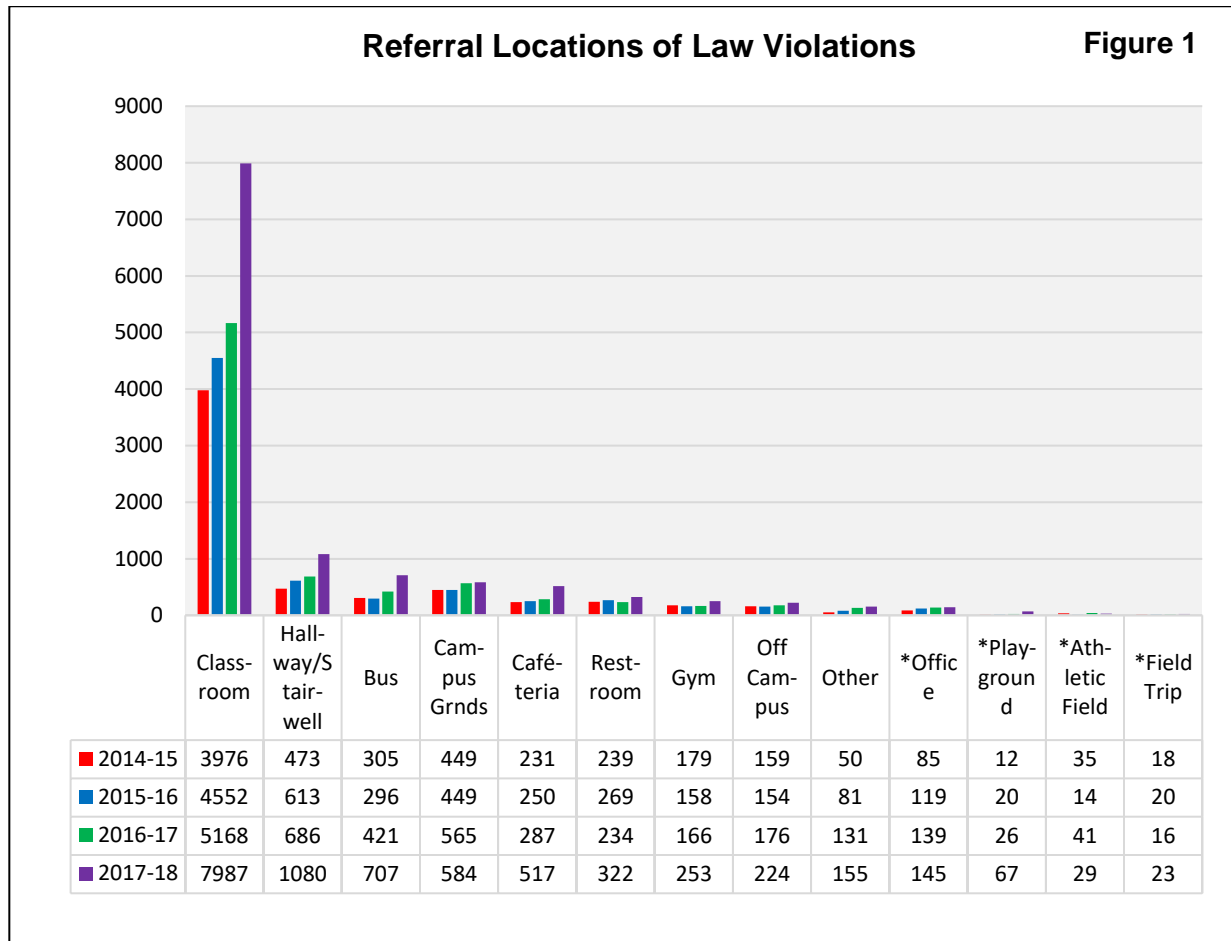

\*\*\*Category was added in the 2014-2015 school year by KDE.

\*\*\*\*Category was added in the 2015-16 school year by KDE.

\*\*\*\*\*Category was added in the 2017-18 school year by KDE.

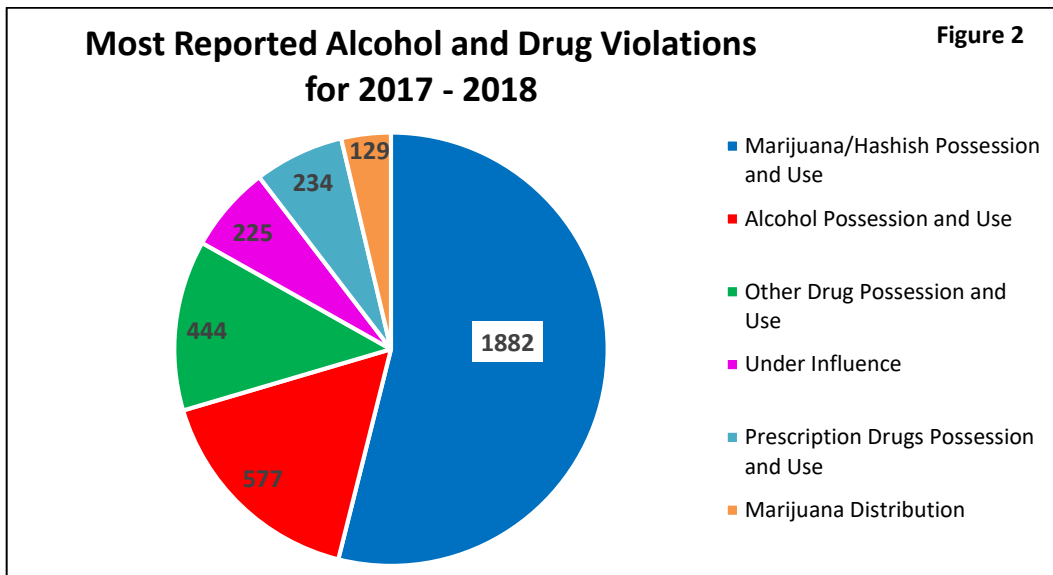

Law violations were most frequently reported in the classroom (66.04%, **see Figure 1**), in a hallway or stairwell (8.93%), on the bus (5.85%), on campus grounds (4.83%), and in the

cafeteria (4.28%). Fewer violations were reported, in the restroom (2.66%), in the gymnasium (2.09%), off-campus (1.85%), and on the playground (0.55%). Unspecified “other” locations accounted for 155 violations (1.28%).

## Alcohol and Drug Violations

Twenty-three categories involve alcohol and drug violations and account for 31.01% (n=3751) of all law violations reported for the 2017 - 2018 school year. Taken together the six alcohol and drug violations illustrated in **Figure 2** reflect 28.87% (n=3491) of all law violations. Marijuana/hashish possession or use was again the most common alcohol or drug violation reported (n=1882) in the 2017 - 2018 school year, and was reported three times more frequently than alcohol possession and use, the second most common violation. The violations of alcohol possession and use (n=577) stayed consistent with the 2016 – 2017 report. However, under influence (n=225) increased by 22.28% and prescription drug possession and use (n=234) increased by 32.95%. However, “other drug possession and use” (n=444) decreased by 8.07% and marijuana distribution (n=129) stayed the same. Alcohol distribution (n=64) did increase by 88.23%. Also, there were 65 total reports for violations involving amphetamines, inhalants, heroin, barbiturates, and cocaine or crack, which account for less than one percent (0.54%) of all alcohol and drug violations.

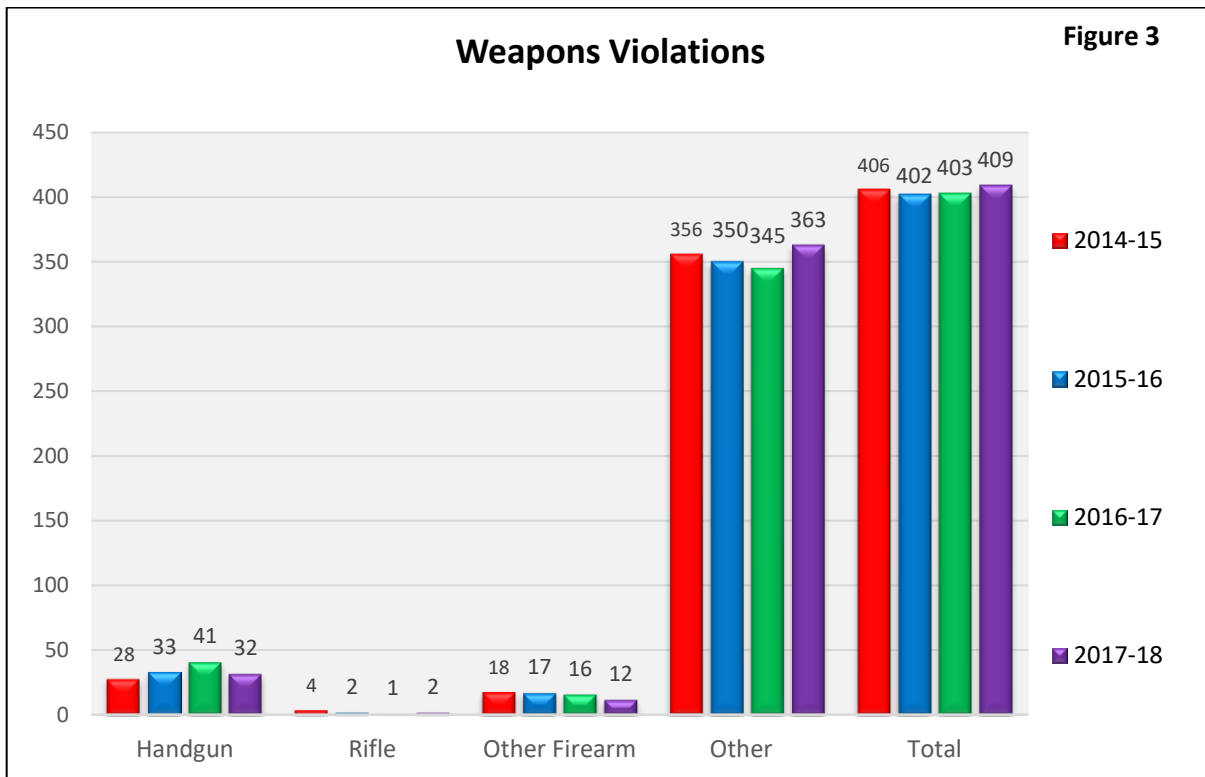

**Table 2** shows a comparison of alcohol and drug violations over the past four school years. With the exception of five categories, marijuana/hashish possession and use, under influence, prescription drugs possession and use, prescription drugs distribution, and alcohol distribution, all other alcohol/drug violations had a minimal increase, decreased or stayed the same from 2015 - 16 to the 2017 - 2018 school year. The four-year report shows a consistent increase with marijuana/hashish violations.

## Weapons Violations

Weapons violations (n=409) accounted for 3.38% percent of all reported law violations in 2017 - 2018. The vast majority (n=363) of weapons violations were related to “other” weapons, defined as any object that is capable of being readily used by one person to inflict severe bodily injury upon another person. “Other” weapon is frequently a pocketknife. Forty six violations involved firearms, specifically, 32 handguns, 2 rifle, and 12 other firearm violations were reported (see Figure 3).

## Other Violations

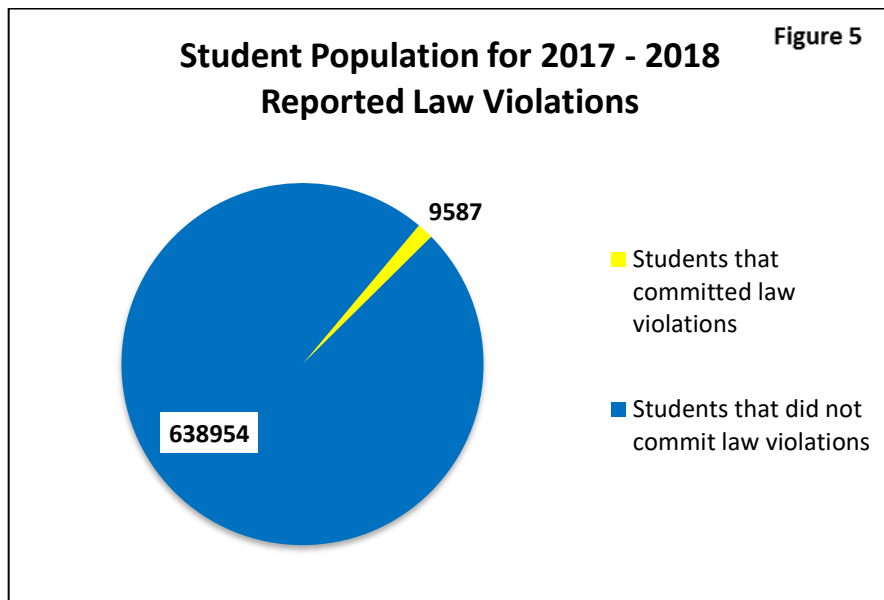

There were 7933 (65.60%) reported law violations during 2017 - 2018 that were not related to weapons or drugs and alcohol. Of these violations, the most commonly reported law violations were disorderly conduct (n=443, 3.66%), terroristic threatening (n=860, 7.11%), and 4<sup>th</sup> degree assault (n=650, 5.38%) (see Figure 4).

## Section III: Characteristics of Students Involved in Reported Law Violations

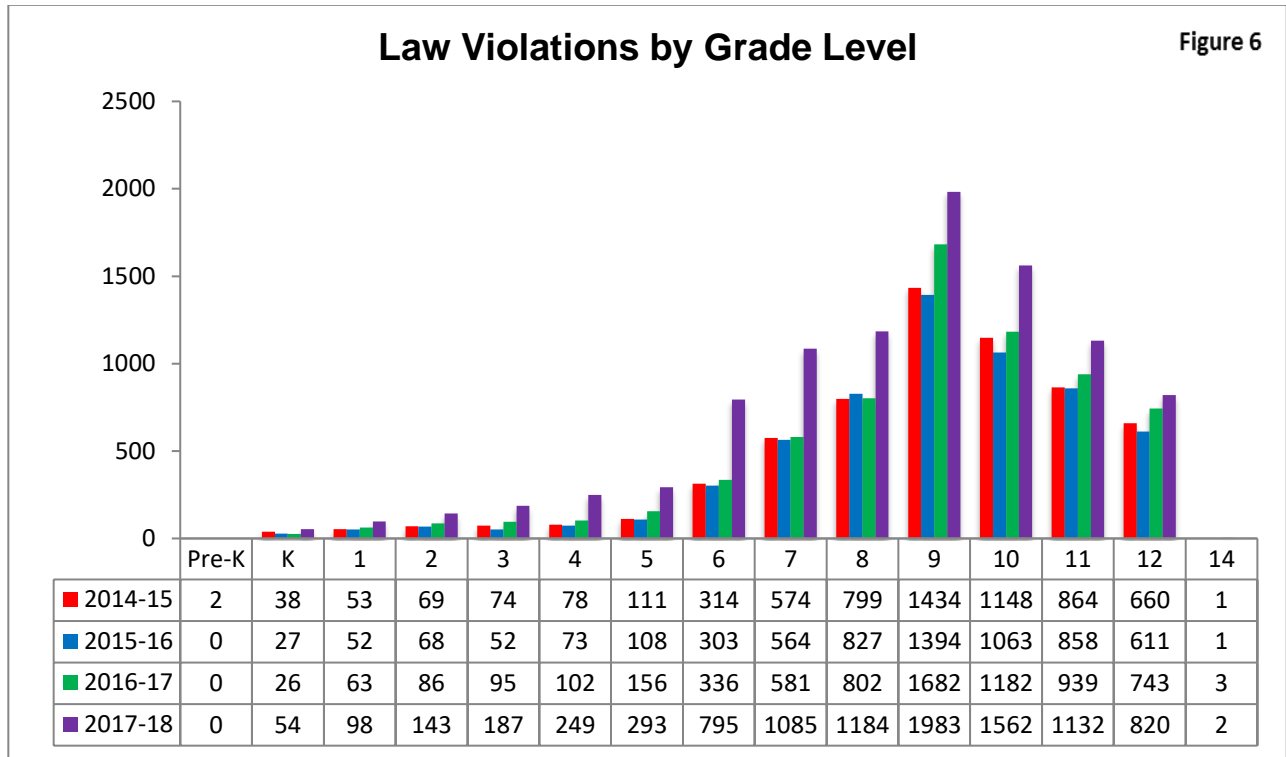

---

During the 2017 - 2018 school year 9,587 students committed 12,093 law violations. These 9,587 students comprise a little over **one percent (1.48%)** of the student population (n=648,541), indicating that 98.52% of students in Kentucky's public schools did not commit a reported law violation (**Figure 5**). Rates for the number of students with law violations per 100 students enrolled were calculated for each school district and are available in Appendix B. Based on the rate for the entire state, each school district had, on average, one (1.04) law violation per 100 students enrolled. The rates of the two districts with the largest rates of students per 100 with reported law violations were 5.72 and 4.37.

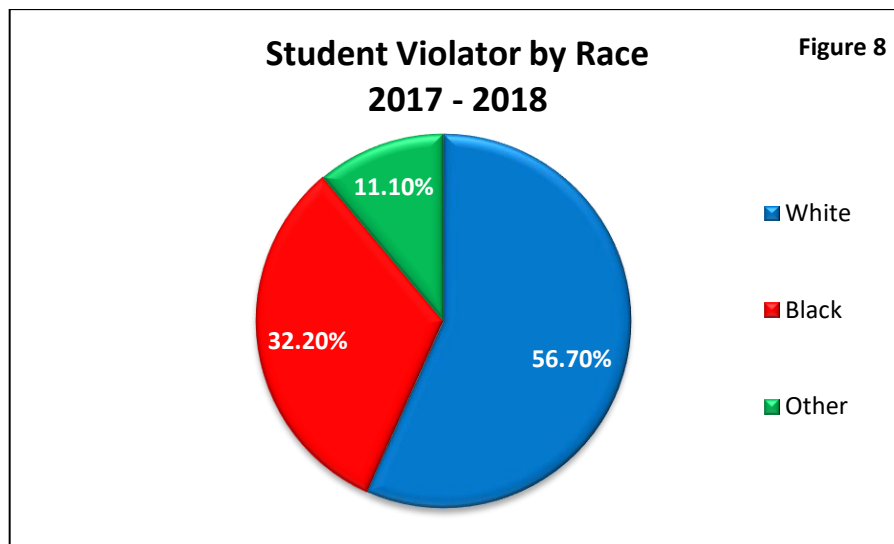

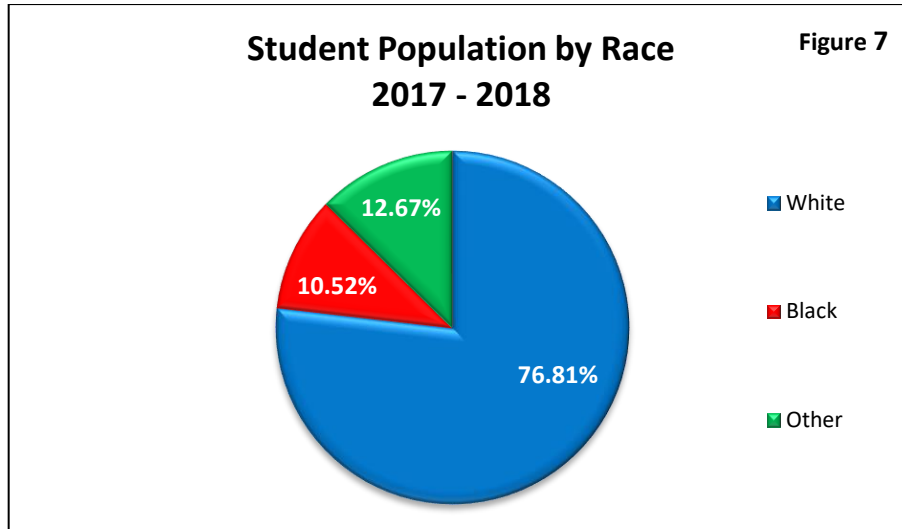

**Figure 6** shows the grade levels for students who had reported law violations. During the 2017 - 2018 school year, one in five of the students (20.68%) were in ninth grade, 16.29 percent were in tenth grade, (12.35%) were in eighth grade, (11.81%) were in eleventh grade, and (8.55%) were in the twelfth grade. In general, most of the students with reported law violations were in grades nine through 12 (57.34%), followed by students in grades six through eighth (31.96%), and students in kindergarten through fifth grade (10.68%). A list of violations by grade level and category can be found in **Appendix C (page 60)**.

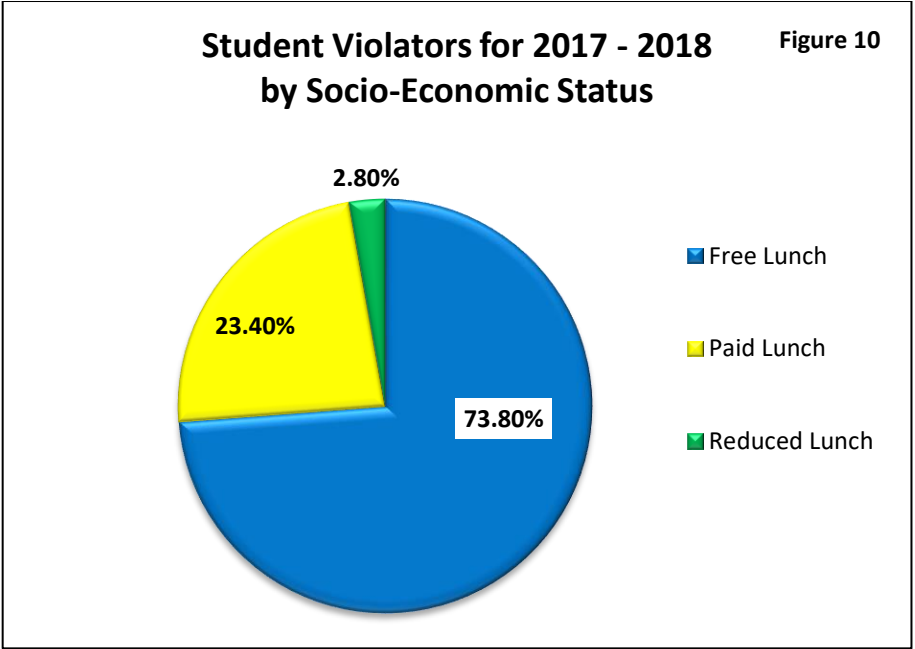

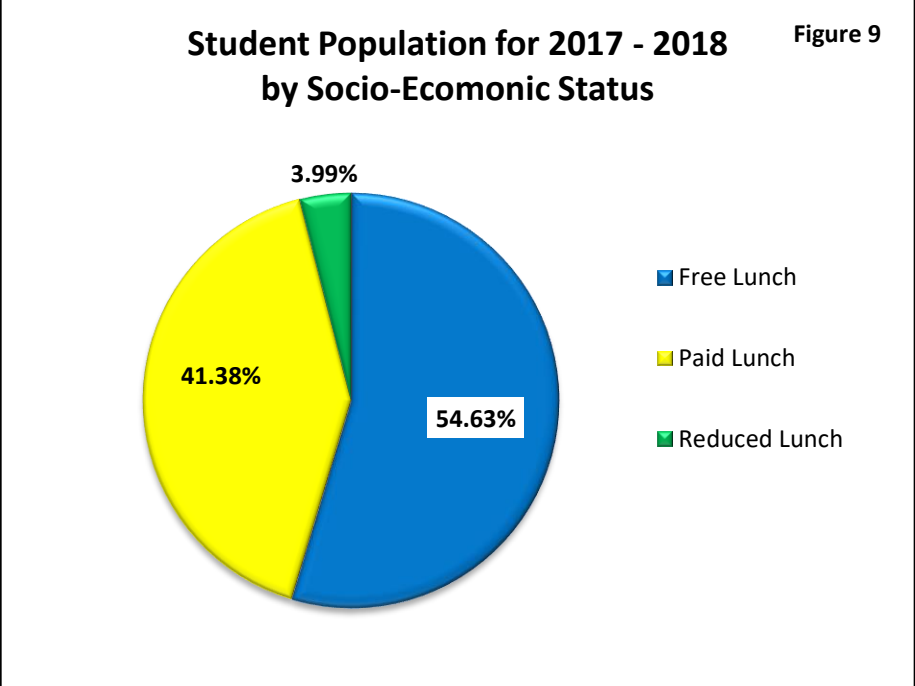

For reference purposes, **Figure 7** depicts the same categories of race for the entire student population while **Figure 8** shows the race of student violators. Of the 648,541 students enrolled during 2017 - 2018 school year, (76.81%, n=498,142) were white, (10.52%, n=68,224) were black, and (12.67%, n=82,175) were classified as a race other than white or black. Most of the students with reported law violations were white (56.70%, n=5,435) and black (32.20%, n=3,087). A little more than 10 percent (11.10%, n=1065) of students with reported law violations were classified as a race other than white or black (**Table 2**). Statistically, there were significant ( $p < .01$ ) differences between each category of race when comparing the percentages of students with reported law violations to the percentages of enrolled students in each category. Specifically, there was a significantly ( $p < .01$ ) higher percentage of black students with reported law violations (32.20%) as compared to black students enrolled (10.52%) for the 2017 - 2018 school year, and there were significantly ( $p < .01$ ) lower percentages of white (56.70%) and other race (11.10%) students who had reported law violations when compared to white and other race enrollments (76.81% and 12.67%).

**Table 3** contains the number of violations per student broken down by gender and race or the last three school years. In 2017 - 2018, the vast majority of violators (71.89%) were male. Also, 18.72 percent of male violators had multiple violations as compared to 14.55 percent of female violators. Females had as many as nine reported law violations and males had as many as twelve reported law violations. Black males with one violation comprised 12.00 percent of the violators and 35.49 percent of students with multiple violations.

As shown in **Figure 9**, 54.63% of all enrolled students were on free/reduced lunch while 41.38% were on paid lunch for 2017 - 2018. Almost three quarters (73.80%) of students with reported law violations were on free or reduced lunch while almost a quarter of students (23.40%) were in the paid lunch category (**Figure 10**). A breakdown of the number of law violations reported for students by socioeconomic status is presented in **Table 4**. There were significant ( $p < .01$ ) differences in percentages of students with reported law violations in each category of lunch when compared to the percentages of all students enrolled in the state.

Particularly, there was a significantly ( $p < .01$ ) higher percentage of students with reported law violations on free lunch (73.80%) as compared to the percentage of enrolled students on free lunch (54.63%), and there were significantly ( $p < .01$ ) lower percentages of students with reported law violations on reduced (2.80%) or paid lunch (23.40%) as compared to the state student population on reduced (3.99%) or paid lunch (41.38%).

A comparison of the special education status of all students in the state (**Figure 11**) indicates that the percentage of student law violators with special education status (23.60%, **Figure 12**) is significantly ( $p < .01$ ) greater than the percentage of the overall student population with special education status (15.62%). Similarly, a significantly ( $p < .01$ ) lower percentage of student violators did not have special education status (76.40%) as compared to percentage of enrolled students without special education status (84.38%). A summary of the number of violations per student by special education status is presented in **Table 5**.

More than 15 percent (17.54%, n=1682) of the 9,587 students who committed law violations were responsible for more than one violation during the school year; the vast majority (n=7905, 82.46%) of these students committed a single violation. As referenced on **page 19**, when analyzing the 1682 students with multiple violations by gender and race (**Table 3**), most (69.14%) of these students were white males (n=566, 33.65%) and black males (n= 597, 35.49%). The fewest number of students with multiple violations were in the other females category (n=36, 2.14%). An examination of the same students by lunch type indicates that more than three quarters (n=1325, 78.78%) of them received free lunch, 1.07% (n=18) reduced lunch, and the other 20.15% (n=339) had paid lunch status (**Table 4**), as shown on **page 21**. Additionally, 66.59% (n=1120) of the 1682 students with more than one reported law violation did not have special education status, while the other 33.41 % (n=562) were listed as special education students.

# **Appendix A – Definitions of Law Violations**

**Important:**

**This law violation guide was developed in 2005 by a collaboration of ECU law enforcement educators, local law enforcement officers, School Resource Officers, and lawyers and staff from the Kentucky Department of Education and the Kentucky Center for School Safety. It is intended to serve as clarification for school personnel when coding law violations upon school property. These definitions are not legally binding and should only be used to assist school personnel in coding law violations at their school for safe schools data collection purposes.**

**For any questions that arise regarding the legal definition of a student action, please consult with your school board attorney or local law enforcement representative.**

<b>Code</b>	<b>Code Description</b>	<b>Definition</b>
<b>11</b>	<b>Criminal Homicide</b>	A person is guilty of criminal homicide when he causes the death of another human being under circumstances which constitute murder, manslaughter in the first degree, manslaughter in the second degree, or reckless homicide.
<b>20</b>	<b>Forcible Rape</b>	A person is guilty of forcible rape when he/she engages in sexual intercourse or deviate sexual intercourse with another person by forcible compulsion; or he/she engages in sexual intercourse/deviate sexual intercourse with another person who is incapable of consent because they are physically helpless; or is less than twelve (12) years old. "Deviate sexual intercourse" means any act of sexual gratification involving the sex organs of one person and the mouth or anus of another; or penetration of the anus of one person by a foreign object manipulated by another person (other than generally recognized health-care practices). Sexual intercourse means sexual intercourse in its ordinary sense and includes penetration of the sex organs of one person by a foreign object manipulated by another person.
<b>30</b>	<b>Robbery</b>	The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force and/or putting the victim in fear.
<b>50</b>	<b>Burglary</b>	A person is guilty of burglary when, with the intent to commit a crime, he knowingly enters or remains unlawfully in a building. A building, in addition to its ordinary meaning, means any structure, vehicle, watercraft or aircraft where any person lives or where people assemble for purposes of business, government, education, religion, entertainment or public transportation. Thus, breaking into a bus and stealing something from the bus would be counted as burglary.
<b>60</b>	<b>Larceny - Theft</b>	The intentional taking of the property of another.
<b>70</b>	<b>Motor Vehicle Theft</b>	The theft or attempted theft of a motor vehicle.

<b>75</b>	<b>Kidnapping</b>	A person is guilty of kidnapping when he/she unlawfully restrains another person and when his intent is: (a) To hold a person for ransom or reward; or (b) To accomplish or to advance a commission of a felony; or (c) To inflict bodily injury or to terrorize the victim or another; or (d) To interfere with the performance of a governmental or political function; or (e) To use a person as a shield or hostage; or (f) To deprive the parents or guardian of the custody of a minor, when the person taking the minor is not a "person exercising custodial control or supervision" is defined in KRS 600.020.
<b>80</b>	<b>Destruction of Property</b>	Intentionally or wantonly defacing, destroying or damaging any property of which the person has no authority.
<b>90</b>	<b>Arson</b>	Any intentional burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle, or aircraft.
<b>95</b>	<b>Trespassing</b>	When a person knowingly enters or remains unlawfully in a dwelling, a building or in or upon premises.
<b>100</b>	<b>Forgery</b>	When a person, with intent to defraud, deceive or injure another, falsely makes, completes, or alters a written instrument (e.g., checks, transcripts, official identification, currency).
<b>110</b>	<b>Fraud</b>	Obtaining money or property by false pretenses.
<b>120</b>	<b>Embezzlement</b>	Misappropriating or the misapplication of money or property entrusted to one's care, custody, or control, to include altering or forging financial records.
<b>130</b>	<b>Stolen Property</b>	Violations that include buying, receiving, or possessing stolen property.
<b>140</b>	<b>Vandalism</b>	The intentional destruction, injury, disfigurement, or defacement (i.e., by cutting, tearing, breaking, marking, painting, drawing, or covering with filth) of any public or private property without the consent of the owner or person having custody or control.

151	<b>Weapon - Handgun</b>	A handgun is any pistol or revolver originally designed to be fired by the use of a single hand, or any other firearm originally designed to be fired by the use of a single hand. A firearm is any weapon that will expel a projectile by the action of an explosive. This offense encompasses manufacture, sale, or possession of handguns on school property or at a school function. <i>(By Kentucky law KRS 527.070, this excludes students 18 years of age and older who have these firearms in their automobile on school property.)</i>
152	<b>Weapon - Rifle</b>	A rifle is a weapon designed or redesigned, made or remade, and intended to be fired from the shoulder and designed or redesigned and made or remade to use the energy of the explosive in a fixed metallic cartridge to fire only a single projectile through a rifled bore for each single pull of the trigger. This category also includes <b>shotguns</b> . This offense encompasses sale or possession of rifles or shotguns on school property or at a school function. <i>(By Kentucky law KRS 527.070, this excludes students 18 years of age and older who have these firearms in their automobile on school property.)</i>
153	<b>Weapon/Other Firearm</b>	Weapons other than handguns, rifles, or shotguns that will expel a projectile by the action of an explosive. Examples of other firearms include air guns (that use pneumatic pressure or pressurized cartridges to fire a projectile) also known as BB guns and other homemade firearms. <i>(By Kentucky law KRS 527.070, this excludes students 18 years of age and over who have these firearms in their automobile on school property.)</i>
154	<b>Weapon - Other</b>	Any object capable of being readily used by one person to inflict severe bodily injury upon another person. Examples include (but are not limited to) knives, artificial knuckles, club, baton, and nunchaku karate sticks. This offense encompasses manufacture, sale, or possession of these types of weapons on school property or at a school function. <i>(By Kentucky law KRS 527.070, this excludes students 18 years of age and over who have these weapons in their automobile on school property.)</i>

## Interim Alternative Educational Setting

### Definitions and Guidance on Data Entry in Infinite Campus

Refer to 707 KAR 1:340 Sections 13 & 14

#### *Interim Alternative Educational Setting (IAES)*

An appropriate setting determined by the child's Admissions and Release Committee (ARC) in which the child is placed for no more than 45 school days. This setting enables the child to continue to receive a free, appropriate public education (FAPE) and participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP. As appropriate, the student receives a functional behavioral assessment, and behavioral intervention services, and modifications that are designed to address the behavior violation so that it does not recur.

#### *Dangerous Weapon*

A weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury; such a term does not include a pocket knife with a blade of less than 2 ½ inches in length. (18 USC section 930(g)(2))

#### *Drug offenses*

The use, possession, sale, or solicitation of drugs as identified in 21 U.S.C. Section 812(c). These offenses do not include the use, possession, sale, or solicitation of alcohol or tobacco.

#### *Serious bodily injury*

A bodily injury that involves a substantial risk of death; extreme physical pain; protracted and obvious disfigurement; or protracted loss or impairment of the function of a bodily member, organ or faculty. (18 USC Section 1365(h)(3))
