

An online and interactive CE course

SP201

Advancing Suicide Prevention & Clinical Management for Diverse Clients

in partnership with the Kentucky DBHDID

Earn 6 CEs Appropriate for clinicians, peer providers, counselors, & others

*APA approved only see below for more details

CE Course Overview

Boost your suicide assessment and management skills! Attendees will learn state-of-science theoretical, measurement, and applied research as practical approaches to assist clinicians in accounting for culture and diversity in their suicide prevention and management.

Learning Objectives

Identify Key Steps: Learn six important steps for assessing suicide risk.

Apply Proven Methods: Use approaches that consider current risk levels and protective factors.

Understand Safety Planning: Explore key elements of safety planning and treatment.

Promote Cultural Competence: Understand cultural differences in suicide and how to assess diverse populations.

Use Effective Tools: Implement practical frameworks and tools to improve your practice.

General and youth asynchronous self-paced course available now!
